

Dear Parents

This letter has been sent home to inform you about your child's learning for **next week**.

In **Literacy**, we will be focusing on poems and the various techniques used by poets. We will be identifying metaphors and personification, before performing a performance poem as a class.

In **Numeracy**, we are learning to solve algebraic equations, finding the values of missing numbers and solving word problems based on algebra.

In **Science**, we will continue looking at the relationships between plants and animals. We will be focusing on developing food chains into food webs and identifying the different types of consumers in the animal kingdom.

Our **IPC** we will be looking at how different structures are designed and built. We will be focusing on Motte and Bailey castles and researching skyscrapers from around the world and analysing how they are constructed. We will also be using our map skills to identify capital cities from across the globe and will be discussing why their location is important to their success.

In **ICT**, we will be learning how to create a PowerPoint with hyperlinks, to help us create an online quiz.

In **PSHE**, we will be learning about helping others in various ways, and the value of money.

For **Spellings**, students will receive their spelling lists on Thursday and will be tested on the list the following week. Students will have 11 words to learn during the course of the week.

Notice & Reminders:

- Please remember to check your child's Communication Book daily.
- Please remember to like our Facebook page Year 6 for updates from the Year group.
-

Have a lovely weekend!

Yours faithfully
Year 6 Team
