

Dear Parents

This letter has been sent home to inform you about your child's learning for **next week**.

In **Literacy**, we will be focusing on non-chronological reports. We will be looking at features of reports before drafting and writing our own.

In **Numeracy**, we are looking at area and perimeter. We will look to understand that shapes can have the same perimeters but different areas and vice versa, calculate the area of a triangle using the formula, find the area of parallelograms, name and describe properties of 3D shapes and systematically find and compare nets for different 3D shapes.

In **Science**, we will be continuing our new topic of 'Force and Energy'. We will be investigating the effects of gravity on objects, and how energy can move in various directions.

Our **IPC** we will be continuing to create our fairground rides, before evaluating how effective they are once we have completed them.

In **ICT**, we will be investigating world temperatures and using Microsoft Excel to present our findings.

In **PSHE**, we will be discussing the differences between ourselves, and how nobody is the same.

For **Spellings**, students will receive their spelling lists on Thursday and will be tested on the list the following week. Students will have 11 words to learn during the course of the week.

Notice & Reminders:

- Please remember to check your child's Communication Book daily.
- Please remember to like our Facebook page Year 6 for updates from the Year group.

Have a lovely weekend!

Yours faithfully

Year 6 Team
