We believe there is no limit to what your child can achieve, and our approach enables students to achieve more with us than they would at any other school.

Inspirational learning

Our schools offer a personalised approach to learning, enhanced with unique global experiences to inspire your child's ambition and produce exceptional achievement right across the curriculum.

We will respond to your child's strengths and adapt our learning model to help them overcome challenges. Our tailored approach, combined with individual attention and a teacher to student ratio of 1:10, creates a nurturing environment in which your child will excel academically, socially and personally.

Your child's learning will be enhanced by a curriculum designed by experts in their field. For example, our music curriculum has been developed in collaboration with The Juilliard School, a world leader in performing arts education.

Our outstanding academic results are testament to this approach, with one in three students going to the world's top 100 universities.
