! INFORMATION & REMINDERS

We had a wonderful time at our class parties yesterday, the children thoroughly enjoyed themselves and lots of fun was had by all. Thank you very much for all the delicious food that was sent in to help us celebrate!

The children have now received their Global Campus passports. Whenever your child completes one of the activities or competitions they will receive a stamp in their passport. The children have received a letter and been told about the 'Be Ambitious' writing competition. We are hoping to receive lots of exciting entries after the holidays.

The Year 4 team wish you a great holiday and we look forward to seeing all the children on Wednesday 6th January.

ENGLISH

In English we will be continuing our work on Persuasive texts. Students will be continuing their learning about the different features of persuasive texts and the language that is used to persuade the reader.

Linking to our Topic of Gateways to the World, students will be writing Persuasive texts to Airline companies to sell their Entertainment Packs that they have designed. The purpose of this will be to use convincing arguments, with strong supporting statements, explaining why their product is the best.

MATHEMATICS

In Mathematics we will be reviewing all we have covered in Fractions thus far.

In addition to this we will be looking at finding equivalent fractions.

Once we have consolidated our understanding of fractions, we will be using this to work on finding decimal equivalents. Initially this will be looking at tenths and hundredths equivalents, and based on understanding move on to quarters and halves.

TOPIC

In Topic we will be continuing our learning in Society about the different jobs at the airport. Students will also be looking at jobs which are performed on the airplane such as Pilots, Air Hostesses and the many tasks that the flight crew has in order to make a trip comfortable for their passengers.

To tie in to this, Students will be creating Job Advertisements for the many jobs there are at the airport and also look at the safety demonstrations which are performed on the plane.
