

This Week in F2N

A look back at the week....

At home...

Please find a home learning sheet inside the communication folder.

Reminders and Notices

Thank you to all of the families who attended the Graduation Ceremony. It was wonderful to see you and celebrate the successes of the students together.

Next week we will..

- Learn to count in steps of 100.
- Complete some activities involving money and become more familiar with British currency.
- Learn more about fossils and where they came from.
- Use our fine motor skills to find and clean fossils.
- Develop our gross motor skills by moving like dinosaurs and doing the Dinsoaur Stomp!
- Use our imagination to design and create 3D fossil sculptures.

Top Tip!

Play games with your children that include an element of competition. This will allow your child to develop an understanding of winning and losing, as well as increase their patience when taking turns. Try board games such as snakes and ladders or dominoes, which will also help their counting and number recognition.
