CHILDREN'S FOUNDATION

Thank You British Vietnamese Int. School!

Thanks to the hard work of so many teachers and students at BVIS, you raised \$2,523 USD last year which has been used to support some of the most disadvantaged young people in Vietnam. Thank you so much for your support!

British Vietnamese International School's donation has helped to:

- Cover the cost of electricity and gas in one of our shelters
- Provide nutrition for ten boys living in our care
- Enable 20 children living in our shelter to access clean water and health checks.

The Shelter: Designed to support some of the most vulnerable and disadvantaged children in Hanoi, Starfruit House exists to provide temporary accommodation for young boys until more permanent accommodation can be found for them.

Nutrition: The funds generously donated by BVIS have covered the cost of all nutrition for the first three months and also paid for most of the utilities bills. This means that the ten children living in this shelter have been able to have nutritious breakfasts and dinners for three whole months. (They have lunch in Dragon House)

Health Checks: Thanks to BVIS' generous support, 20 Shelter kids were able to have their transportation paid when they went for a general health check-up. Amongst other things, they had their eyes tested, as well as their blood pressure and dental health examined. It was a good opportunity to identify underlying problems, and to treat them.
