

# Annual Report 2017

Hopeful Hearts  
Guangzhou  
心的希望广州

## Chairpersons Summary 2017

2017 was the most successful year to date for the Guangzhou Hopeful Hearts team. We almost doubled the number of cases we supported, as well as doubling our income compared to 2016.

We supported the surgery costs of 29 cases (compared to 15 cases in 2016).

The increase in the number of referrals we received was due in part to the new relationship we developed with an additional hospital in Guangzhou, The Provincial Hospital of Guangdong.

We are very fortunate to have secured a partnership with Procter & Gamble in 2017. The manufacturers of the diaper brand "Pampers" agreed to provide all the Hopeful Hearts babies leaving hospital with a 1 year supply of Pampers diapers delivered to their home. This premium product is a fantastic bonus for our families and is a wonderful way of wishing our babies the best of health in the future. Huge thanks to them for their support.

In terms of fundraising we also had our most successful year to date. This was largely due to the continued and incredible support we receive from our sponsors. The British School of Guangzhou this year contributed 433,218.20rmb, which represents 53% of our revenue. They have proven to be consistent partners, and all members of their community have supported us.

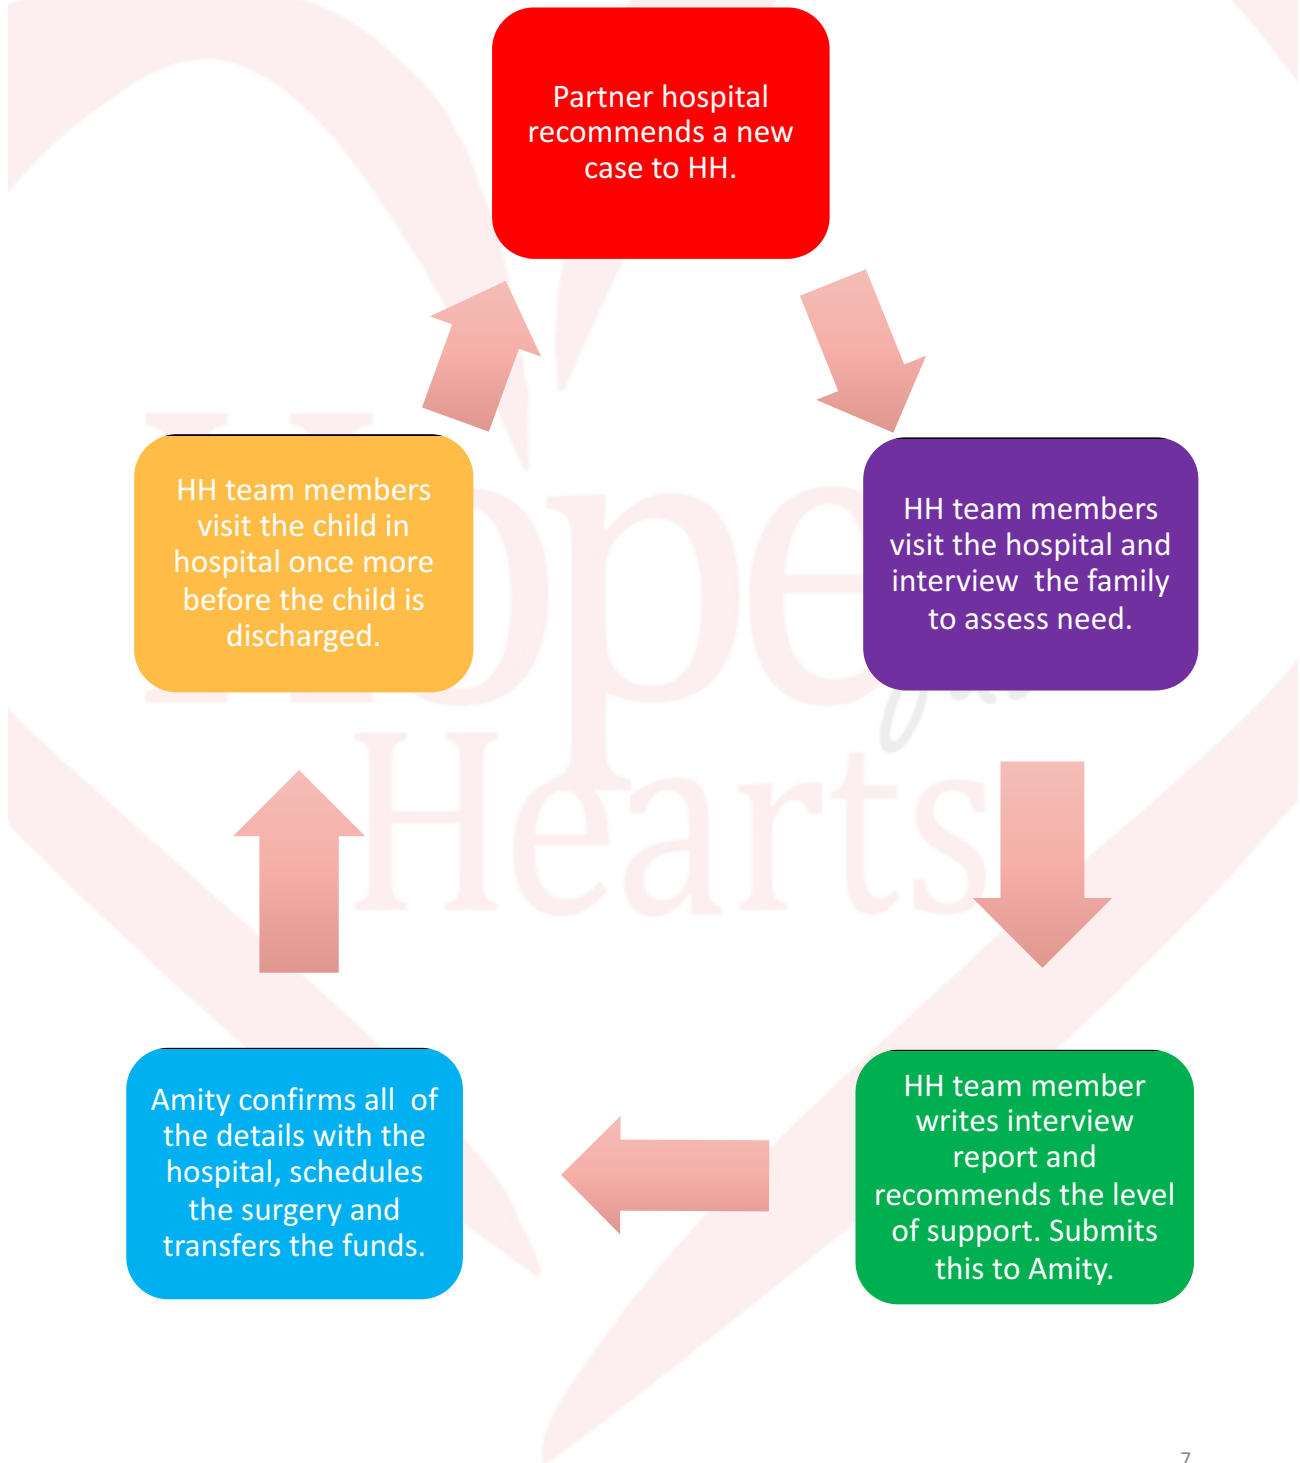

Although direct donations and sponsorship remain our main source of revenue (75%), we have also been active in organizing fundraising social events, attending bazaars and sales, organizing tours and expanding the Piggy Bank Scheme, to name a few. Not only are these fun and sociable events, they are invaluable in maintaining the high profile of the charity.

Our official wechat page which was launched in autumn 2016 is now our main vehicle of communication. We post all our case notes as well as details of our fundraising events. It is very well received and supported in the Guangzhou community.

Helen Price
