

Group 4 Project

The Group 4 project, a compulsory element of the IB diploma that sees students working in groups made up of each Group 4 subject and experimenting. The project lasts for 10 hours and culminated in presentations.

This year the theme was water and the students were encouraged to be as creative as possible when coming up with a question to investigate and when presenting back their

The event took place on Friday the 27th May and ended on Saturday 28th May. The Friday saw the labs and DT rooms occupied by busy students all day with the Saturday being used to create a presentation to present back their findings.

Each group came up with a different question and investigation ranged from those linked to our CAS Tanzania trip to those that were being done to satisfy personal curiosity.
