

Year 3 Home Learning Menu

Starters: International Week

-  On a blank world map, find your home country (where you come from) and your host country (where you live). Colour them in different colours.
-  Add to your world map all of the countries that you have visited in a new colour. Colour in all of the countries that you would like to visit in another new colour.
-  Find out some cool facts about your International Week country and bring them in to share.
-  Find something that is from the country that you are studying next week and bring it in to show your class.

Main Course – you **MUST** do these every week:

- Read for 15 minutes - 5 times per week
- Check your spelling book (small orange book)
- Check your times table books (small yellow book)
- 15 mins on Mathematics/Reading Eggs – 3 times
- Numeracy – Online home learning on Abacus website. <https://www.activelearnprimary.co.uk>
- Literacy Activity – Create a fact file all about your country of study for next week's 'International Week'.

- Everyone **must** finish the main course every week. Work must be completed in your Home Learning books and returned to school by Tuesday.
- Everyone **must** attempt one, or both, of the dessert projects. You will be asked to present your work to your teachers and peers.
- If you are feeling *extra* hungry, you can order from the starters. These will focus on a different subject each week. Each dish has a difficulty rating. The more chillies, the more *challenging* the task!
- Why not spend some time tackling some of the family side dishes? Time spent as a family is important and you can learn together whilst having fun.

Dessert: Projects are due on **18 January!**

- Create a poster to describe each of the **FORCES** that you know about. Join all of your posters together to create a **super poster** of forces!
- Where can you fly to from Doha? On a **large map**, find all of the places that you have been and mark them in **one colour**. In a **different colour**, mark all of the places you can visit from Doha. You could use stickers, a marker pen or anything you like!

Sides: Family Fun

- Design an experiment to investigate a force. Remember: how can you keep it a fair test?
- What countries would you like to visit? Why? Make a plan of which countries you would love to go to!
