

Be Ambitious

The British School of Guangzhou offers a personalised approach to learning, enhanced with unique global opportunities that supports outstanding achievement. Our approach nurtures key life skills alongside academic achievement, enabling your child to achieve more with us than they would do at any other school in Guangzhou.

Academic results presented are fully inclusive of all students studying at the school, including new students and those receiving extra support with English language. Our results speak for themselves, significantly exceeding global and UK averages.

This academic success is only half the story as we firmly believe that to be truly successful, students also need to be ambitious both personally and socially. That's why we ask each and every student to embrace the school's core values of respect, responsibility, integrity and commitment, as they develop a love of learning that will be with them for a lifetime.

At the British School of Guangzhou, we believe that there is no limit to what your child can achieve.
