

This Week in F2A

A look back at the week....

Reminders and Notices

On Tuesday we will have a splish and splash session in school. Please bring in a swimming costume and towel, and a change of clothes. We will be in a shaded area to avoid direct sun light.

Please ensure your child is wearing a hat every day to school, the temperature is now very high and we want to make sure your child does not get burnt during play time.

Next week we will..

- Continue to learn about addition, by adding group of objects together, adding on a number line.
- Explore capacity by finding out how much of something can fit in various sized containers.
- Read a collection of superhero books and look at good and bad characters.
- Create our own super heroes and think of special powers that we would like to have.

At home...

Teach your child about water safety and have a dip in the pool together. Can they practise floating and moving in the water? Can they move their arms one at a time and kick their legs simultaneously?

Top Tip!

Look for learning opportunities at home and when you're out with your children. Look for numbers and words in the environment to help give meaning to what we learn at school.
