

Year 6 Secondary School Transition Day

Dear Parents and Guardians,

Following the recent Parent Workshop about Secondary School Transition hosted by Mr. Smith, I am pleased to give you details of the first transition event for this academic year. On Wednesday 25th January all Year 6 students will take part in a taster day to give them an experience of what life is like in the secondary school.

All students will participate in a series of four full lessons in different subjects taught by the specialist secondary teachers. They will move to a different classroom for each lesson and the teachers will be providing them with fun, engaging and practical sessions to make it a useful and memorable day.

At the beginning of next week the Year 6 teachers will be providing the pupils with their schedules and talking through the different subjects and teaching locations. We will also be taking photographs throughout the day and these will be posted on the school blog so you will be able to see what the classes have been doing.

If you have any questions please direct them to your son/daughter's classroom teacher in the first instance.

Yours sincerely,

C. Prince
