

# British Education

## A fast track to success

**Fleur Wang**  
Graduated 2014  
Geography with Economics & Spanish,  
University of Edinburgh

### How did The British School of Guangzhou prepare you for life at university?

The British School provided me with the opportunity to reach my academic goals and gave me the guidance I needed to get to my dream university. Not only did I learn to work independently, but I also gained great interview and essay-writing skills.

### In what ways did A-Level study kickstart your university education?

I found the A-Level course to be immersive and rewarding. A-Level courses specialise and therefore go into more depth as advanced study is possible. It also gave me the confidence in knowing that Geography is truly the course for me.

It is now my major, and some topics were covered in more detail during my A-Levels than in my first year at the University of Edinburgh. This really helped me.

Once you complete your A-Level courses, there is no doubt that you can survive life at the university you choose and the academic challenges it brings.

### What were some of the highlights of your time in Guangzhou?

Every day at The British School of Guangzhou was a highlight for me! I will never forget the amazing friends I made there and the experiences we had together.

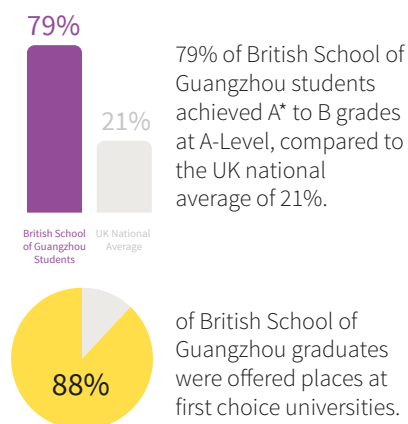

Learning to sail around the islands in Hong Kong, diving for the first time in Thailand, the stress of exam week, the paranoia of opening our exam results and our wonderful week of paradise in the Philippines as part of our graduation trip!

The British School of Guangzhou is a really lovely community full of kind and exciting people. I miss it so much.

## Fast Facts

-  A-Level qualifications accepted globally at top universities.
-  A-Level students specialise early, allowing many students to be fast-tracked through the first year of study when they reach university.
-  The British School of Guangzhou offers 17 specialist subject areas covering Mathematics, computing, the sciences, languages, humanities and the arts.

## Our Results

“Top A-Level students are prime targets for American Ivy League universities.”

*Yale University Representative, 2014*

## The British School Graduates

In a recent survey conducted by the Council of British International Schools (COBIS), The British School of Guangzhou came 3rd in the world for A\* to B grades at A-Level. With half of all the School's graduates from 2014 accepted into the world's top 30 universities and the class of 2015 already securing offers at prestigious institutions, there has never been a better time to celebrate British education in Southern China.
