

The Treasure of Dragon

In ancient Greece, there was a warrior named Gabe. His family was a very old family. Long ago, one of their family members accidentally found a map that recorded where the treasure of the dragon was located. Many family members went out to try to find it, but none of them came back. *Did they die in natural disasters? Had they been killed by someone?* Gabe's family was very strong, but his family broke down because of one enemy named Demos framed them. Demos told the king that they were trying to bring a revolution. So the king's army attacked them a week later, but only few members escaped.

From that moment they have been told. All the boys needed to go and find the treasure. When they were grown men, they could revenge.

After Gabe was told, he took twenty serfs with him. They went on a ship and started their adventure. The treasure was on a little island in the Pacific Ocean. A few months later they were near the little island. They thought they had arrived, but a big storm appeared. Suddenly lightning hit the side of Gabe's ship. The water came in, the ship was about to sink. Gabe and his serfs gave up the ship. The people went on four small boats. In weather like this, it was really hard to arrive at the island. The big waves can flip the boat over easily. Gabe was lucky he and his boat did not get destroyed by the waves. They were the only one who survived.

Gabe and his serfs followed the map. They found the treasure in a cave. It was the blood of the dragon. They had heard from history that a long time ago there was a very powerful dragon. He was almost unbeatable, but many countries came together and killed the dragon.

There was a country near Greece that collected some of the dragon's blood. Afterwards their leader was trying to kill a traitor, so they made him drink the dragon's blood. They thought it was poisonous, but he was powerful and killed all of them.

Gabe also drank the blood, he felt pain, but he got stronger. Finally he had the power to revenge. Many months passed, Gabe went back to Greece. He led his family and revenged against the Demos family.
