Receive early swimming tuition from qualified staff in our new trainer pool. Swimming not only helps to develop muscle tone, coordination, balance and gravitational security but also eye movement control, fine motor skills for writing and spatial awareness.

THURSDAYS *Join us for fun singing and finger stretching activities!*

This Multisensory approach will aid your child's language development and support muscular coordination. Our qualified teacher will introduce concepts such as counting and rhyme.

FRIDAYS *Explore arts and crafts, story and song times!*

Join the fun on a Friday in our friendly Regents Little Lions room. Children will be able to engage in various educational activities and learn skills through play. This will also be a lovely opportunity to meet other parents with children of similar age to your child.
