

Covid Community Transmission Management, Reduction and Prevention Measures: A Summary (Secondary School)

(Issued together with Official Letter No. 548/UBND-VX dated February 22, 2022 of the City People's Committee)

- [Covid Positive](#) - Self Isolate until entirely symptom free for three full days.

Once symptom free, the return to school can occur once your child has either:

- PCR Test Result (Negative)
- A Medically Certified Rapid Antigen Test Result (Negative)
- Local Health Authority Release Certificate
- [Close Contact](#) - (Direct Physical Contact during transmission period). Five (5) Full Days Self Isolation. Return is allowed with either a:
 - PCR Test Result (Negative)
 - A Medically Certified Rapid Antigen Test Result (Negative)
- Household Contact (*Anyone living in the same home*) - Self Isolate for 5 full days from the date of last F0 case. Return is allowed with either a:
 - PCR Test Result (Negative)
 - A Medically Certified Rapid Antigen Test Result (Negative)
- Return from Abroad - after 4 to 8 days depending on vaccination status. Return is allowed with a:
 - PCR Test Result (Negative)
- Symptomatic (Any Cold/Flu/Covid [Symptoms](#)) - stay off school until symptom free.
 - Take a precautionary Rapid Antigen Test prior to return and keep the school informed.

As you will be aware we carry out randomised, contact tracing and cohort testing as part of our covid transmission management and reduction measures. When a child is tested under these circumstances we will make contact with parents.

As a school we recommend regular testing at home. The health of our community is everyone's responsibility. Through vigilance, monitoring, testing and following these points, we can all help to maintain safety and lessen the chances of community transmission.

Inspected, approved and rated as 'Outstanding in all categories' by the British Government
