

*A Nord Anglia  
International  
School for Dublin*

Introduction

Opening in September 2018, Nord Anglia Education's new international school in Dublin will provide an outstanding educational offer, unique in Ireland.

Students aged 3 to 18 years old will benefit from our high quality educational offer which is driven by a commitment to personalised learning enhanced with unique global opportunities. Students and staff will be part of a worldwide community, connected through our Global Campus and Nord Anglia University. Additionally, our collaborations with world leading institutions such as The Juilliard School, Massachusetts Institute of Technology (MIT), UNICEF and King's College London enhance the curriculum and offer exceptional professional development for teachers. This approach results in high academic outcomes, and equips students with the skills which are essential to thrive in the 21st century.

## *The Campus*

The new international school will comprise an 800 seat campus located in South County Business Park, Leopardstown. We will remodel the existing site over the next 18 months to create an impressive learning environment for students. The campus will feature extensive facilities, including specialist arts and STEAM (science, technology, engineering, arts and maths) facilities to support the delivery of our collaborations with Juilliard and MIT, respectively.

# Join a global family

When your child joins our school in Dublin, they join our global family of students, teachers and staff. Our schools are united by our ambitious philosophy and together we create opportunities beyond the ordinary to offer your child the finest international education.

## Be Ambitious

Our family of schools is ambitious. We believe that there is no limit to what our students, our people, and our communities can achieve. We encourage your child to set their sights higher by fostering a global perspective and our schools' personalised approach to learning combined with opportunities beyond the ordinary helps every child to succeed, thrive and love learning.

## Access to world leading programmes

We enrich internationally-recognised curricula with world leading programmes to give your child access to the latest thinking from the world's leading educators.

### Connecting your child to a Global Campus

Your child may be based in Dublin, but they will collaborate with over 38,400 students every day. As part of our global community, we enrich your child's learning experience online, in school, and worldwide. From online debates and challenges, to expeditions in Tanzania and Switzerland, our Global Campus connects our students around the world to learn together every day.

### Helping your child invent the future with MIT

Our collaboration with MIT (Massachusetts Institute of Technology) takes a real-world, hands-on approach to teaching STEAM subjects (science, technology, engineering, arts and maths). Your child will apply their knowledge through challenges designed by experts at MIT and will participate in STEAMfest, our annual event in Cambridge, Massachusetts. Our teachers will also benefit from unique professional development opportunities through annual workshops and ongoing training at the world's leading university.

### Preparing your child for the world stage with The Juilliard School

Your child will have the opportunity to expand their creativity and imagination through our performing arts programme with Juilliard, a world leader in performing arts education. By studying and practicing the core works curated by Juilliard in music, dance, and drama, students will develop their confidence, motivation and personal understanding of the world and other cultures. This opportunity also gives teachers a chance to network across our family of schools, and become part of a vibrant Juilliard community with like-minded and passionate professionals.

### Empowering your child to change the world with UNICEF

We are collaborating with UNICEF to raise awareness of the United Nation's Sustainable Development Goals and your child will work with their school to create solutions for these global issues in their local communities. This year, UNICEF has also invited selected students from Nord Anglia schools, to present their ideas on the SDGs at an event during the United Nations High Level Political Forum (HLPF) on Sustainable Development taking place at UN Headquarters in New York City. This is a unique opportunity for Nord Anglia students to contribute to the discussion and influence policy at the highest level.

## Learn from the finest teachers

We know the difference that great teaching makes so we want your child to learn from the best. We recruit the finest teachers and then invest in their professional development so that your child benefits from leading edge educational practices.

### Nord Anglia University

Our teachers around the world are connected through Nord Anglia University to continually share and set new standards of best practice as part of a professional community. Exclusive to our employees, it gives teachers and staff a vast array of seminars, online courses and workshops, enabling teachers to keep up to date with the latest educational thinking and approaches.

### Leading international education with King's College London

Our innovative Executive Master's in International Education is a part-time programme specifically designed for teachers working in international schools worldwide. The programme will focus on developing participants' understanding of effective school leadership in international education.

### Ensuring outstanding teaching

Our commitment to quality extends throughout every aspect of our approach. Our dedicated Education Team works with our schools to drive a comprehensive continuous improvement programme to ensure that your child receives the best possible education, every day.

### Personalised learning

Small class sizes mean our teachers know every student individually and can respond to your child's strengths, adapting our learning model to help them overcome challenges. Our teachers will inspire your child to be ambitious in their learning, encourage them to try new things, and nurture skills and talents for academic, social and personal success.

## Preparing your child for the future

65% of students entering school today will work in jobs that don't yet exist.

Our unique approach leads to outstanding academic results, with 1 in 3 students going on to attend one of the world's top 100 universities. Importantly, it also equips students to thrive in school and in their future careers. Throughout our core curricula and programmes, we help your child to develop a global mindset and nurture essential skills such as creativity, collaboration and resilience. We want every student to become lifelong learners, to try something new, and above all, to be ambitious.

### The curriculum on offer

Once finalised, the curriculum for the new school will ensure the best possible international and Irish options for our students. Nord Anglia has an outstanding record of academic results, for example in the IB curriculum worldwide.

## Academic Success

Our educational approach enables every student to reach high levels of academic and social success. Our students are confident, entrepreneurial learners and year on year, their standardised exam results exceed global averages.

1 in 3 students attend the world's top 100 universities

Age 16-18

Students score 13% higher than global average

International Baccalaureate Diploma average score (max. 45 points)

## About Us

Nord Anglia Education is the world's leading premium schools organisation. We are a global family of schools driven by one unifying philosophy: to be ambitious for our students, our people and our schools.

We want every child who attends a Nord Anglia school to achieve more than they may have imagined possible. We do this by ensuring the education our schools offer is second to none. We recruit the finest teachers and leverage our scale as a family to develop unique collaborations with world-leading organisations so that every student learns from the best.

This, combined with our personalised approach to learning enhanced with unique global opportunities, equips every student to succeed academically, socially and personally.

Our schools are among the most respected international schools in their locations and we are committed to ensuring that they remain the first choice for families around the world.
