Academic Results

A global education passport

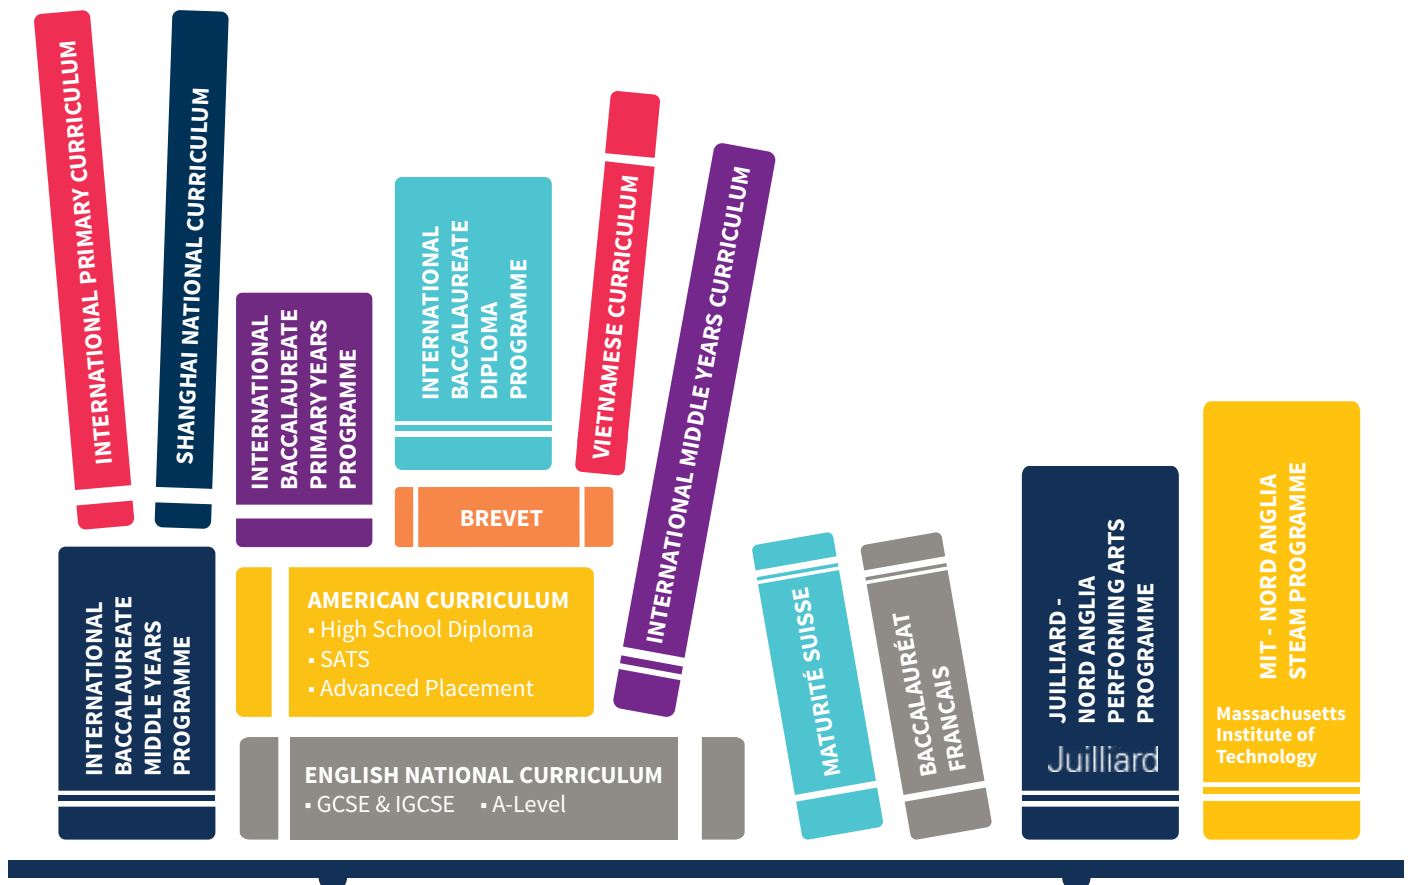

Nord Anglia Education schools around the world offer exceptional learning opportunities for your child.

At the core of our educational offering is a range of internationally-respected curricula and qualifications, which will equip your child with a global education passport to study at schools or universities anywhere in the world. Whether offering an international or national curriculum, each school adapts its offer to embrace local culture and context. This ranges from local language and cultural studies, through to bilingual or multi-curricula offers at our schools in China, Switzerland and Vietnam.

In addition, our collaborations with world leading institutions such as The Juilliard School and Massachusetts Institute of Technology (MIT) further enrich our curricula to ensure that your child truly learns from the best.

When combined with our ambitious education philosophy, personalised learning and outstanding teaching, this approach leads to academic, personal and social success for students of every age.

From our youngest students aged 3, to those preparing for university at 18, Nord Anglia schools support every student to progress and achieve beyond expectations. We are proud that year on year our students achieve more with us in every curricula resulting in academic results that exceed our own, national and global averages. Our approach to nurturing success enables our graduates to go on to attend leading universities around the world followed by diverse and impressive career paths.

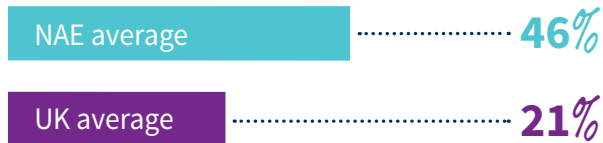

2015-16 Results

Over the last six years, our rate of improvement is above the global average, widening the gap between our schools and others teaching the IGCSE and IB Diploma.

14 -16 YEARS OLD

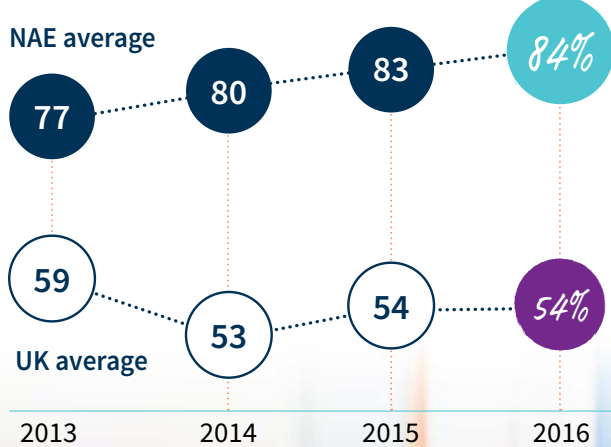

Double the UK average for grades at the highest levels

I/GCSE Grades at A* and A

Students achieve 30% more 5A*-C grades

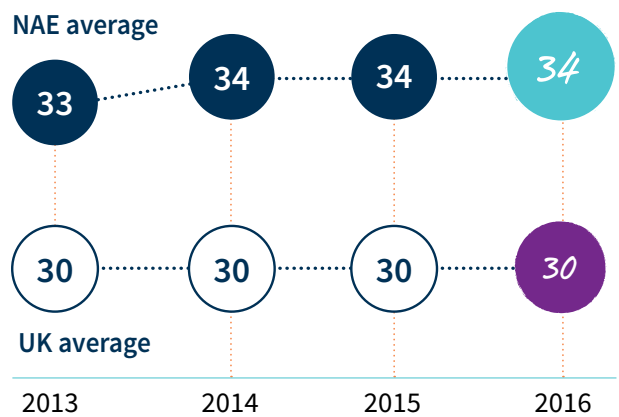

5 A*-C including English and Maths

16 -18 YEARS OLD

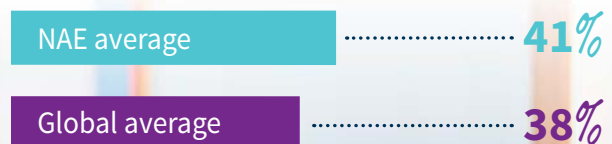

Students score 13% higher than global average

International Baccalaureate Diploma average score (max. 45 points)

More students achieve top Advanced Placement (AP) scores

Advanced Placement - Percentage of students receiving a score of 4 or 5 out of 5

London School of Economics

Duke University

Stanford University

Harvard University

University of Cambridge

MIT

University of St Andrews

New York University

Where do our graduates go?

Already this year, **91%** of Nord Anglia's graduating class have taken up places at leading universities in **46** countries around the world, with others due to start in January. This includes places at 24 of the top 30 universities globally.

Those who have chosen not to go to university are now exploring the world on gap years, starting their careers through internships or employment, or learning new skills through other training.

1 in 3
students attend the **world's top 100 universities**

University of Oxford

Nottingham University

McGill University

University of Melbourne

Nord Anglia Alumni

Thousands of Nord Anglia graduates study at the world's top universities. Here are just three examples of our students whose range of achievements have translated to success beyond academics.

ADRIAN STICKEL

Class of 2014, British International School of Budapest

Whilst studying for his IB Diploma, Adrian founded an online education business with fellow student Miklos Hajnal, attracting an incredible initial investment of \$40,000. In addition to his role as CEO of the venture, Adrian is currently studying at the University of Oxford.

NIKOLAY NIKOLOV

Class of 2008, The British International School Bratislava

Nikolay now works at Mashable, one of the world's leading digital media outlets. He currently heads Mashable's video production team in London, focusing on telling the stories of the future in an engaging and empowering way. Nikolay received his master's degree in Political Sociology from the London School of Economics and is working towards his PhD in Politics and Economics of Eastern Europe at University College London.

KRISTINE BLOKHUIS

Class of 1994, Collège du Léman

Kristine has worked for the United Nations in locations around the world and is currently Deputy Representative for the UN Population Fund in Nepal. Her work involves ensuring that reproductive health services and support for victims of gender based violence are available for all women—especially the poorest and the most vulnerable. Kristine received her master's degree in Development Studies from the London School of Economics.
