

My Story

My name is 황유하, I was born in Cheon An, Korea. Now, I am 13 years old and I am in grade 7. I can use animals to describe my family members. My dad would be a lion. He is kind when it comes to buying things. Mom is like a gentle bear. My sister, Chae Won is a baby koala. She is close to mom and grabs her arm all the time. Lastly, I am a cat. My eyes are like cat's eyes and sometimes I behave like a cat.

I grew up in Korea, and lived there until I was eight years old. Then I spent five years in the Czech Republic. Besides Korean, I can speak English. I learned English when I lived in the Czech Republic at 5 years old. I have hobbies such as reading or writing web novels or read web comics. Also, I can play violin, and cello. I am still basic level in cello. I play my instruments when I am sad or have nothing to do. I play or listen to the music to make myself happy or to calm down. The music genre that I like best is ballads.

When I lived in the Czech Republic, I lived in Ostrava. Every morning the deer and rabbits ran, and jumped in front of my house. When I saw them, I ran to them. I wanted to play with the animals, and they always played with me. There were many kinds of vegetables, and fruits growing in my garden. The fruits and vegetables that my mom and I grew were big and delicious. We cooked food with the many vegetables. Something that I liked most in my house was the attic at the top of the house, under the red roof. The attic was my room. Also, I like sleeping in a warm place. I was happy in my attic room where I could play, sometimes eat, and I always slept with my cats.

I had a very kind neighbor who invited us to have dinner in his house and I played with his cats, dogs and chickens. One day, when we were playing in his house, a hen laid eggs. The dog saw that eggs and jumped, so the eggs dropped. Then he very happily ate the eggs. I was amused and I laughed for a minute.

Now I am living in Chengdu, China. A year ago, I moved here. You can find some fancy and good places in this city. Some parts of it are still poor and dirty. The reason I moved was that my dad's company moved him here to work. When I first came to China, I felt sad and wanted to go back to Korea. Gradually, I felt better. But still, I miss Korea and think about going back one day.

The other thing I like to do is to read comics. My favorite subject is art, because I like drawing. When I grow up, my dream is to be the Naver web novel writer.
