COLLÈGE DU LÉMAN

International Boarding School — Geneva — Switzerland

Louis Yung 7

Louis Yung Villas are located 10 minutes' walk away from the campus, in a quiet residential area. They are very popular with the oldest students who appreciate the preparation for university independent living. Students appreciate the privacy and garden, and walk to school.

Rooms are mostly twin sharing rooms. There is a fully equipped kitchen, a laundry, and a large sitting room with television and Wii in each House. The House has WiFi access. Outside there is a beautiful large private garden with space for activities and other lawn games. There is a paved patio with barbeque and table and chairs.

Student view

"This is my second year living in Louis Yung 7 and I like this house for three main reasons. I like living in this house because I do not feel that I am at the boarding school, I feel like at home because the house is very cozy and a comfortable place to be. Even if it is quite far from school, I like that I can have a walk in the morning and do not feel that I am always at school. Also the house is always very quiet and I can better concentrate on my studies because all the girls are mature." **Enegul, Turkmenistan**
