

NORD ANGLIA  
INTERNATIONAL  
SCHOOL  
SHANGHAI, PUDONG

## *Why Choose Our School?*

*We help your child achieve more*

We create an environment where there are no limits to what our students can achieve, where your child will excel academically, socially and personally.

## Welcome to Nord Anglia International School Shanghai, Pudong

Nord Anglia International School Shanghai, Pudong (NAIS Pudong) teaches children and students of all ages, from pre-nursery children to students preparing for university through the IB Diploma. We provide education from 12 months to 18 years.

### Our Education Philosophy - *Be Ambitious*

We believe there are no limits to what our students can achieve and at Nord Anglia International School Shanghai, Pudong we create an environment where your child will excel academically, socially and personally. Our outstanding teachers nurture and challenge your child through personalised learning for every student. We build on each student's individual strengths and passions. We create challenge and support in every lesson and every activity so that they continuously grow and learn. We offer unique opportunities to open the door to new experiences.

#### *Be Ambitious* Socially

We want your child to be socially ambitious, to desire to make a difference in the lives of others both close to home and on the global stage.

#### *Be Ambitious* Personally

We encourage your child to try new things, take risks and nurture existing talents, whether in the arts, sport, academics or as part of a service club.

#### *Be Ambitious* Academically

Our highly qualified teachers support every child to achieve academic standards previously thought possible only for the few.

## Learn on a *Global Campus*

### Global Campus - Unique International Opportunities

Bringing together a family of 43 schools, our Global Campus connects our students, giving your child access to international opportunities.

#### Global Campus Worldwide

Some of the very best learning takes place away from school, including when students spend time together on a residential trip to an unfamiliar, exciting and challenging location. There are opportunities to be involved in new activities and work with different people.

#### Global Campus In-school

Global Campus In School also offers global activities, challenges and competitions where your child will work with fellow students of all ages in their school to create innovative solutions for a wide variety of real world situations.

#### Global Campus Online

Global Campus online provides a learning environment where students can create content, work with invited experts and debate with others. Your child will learn with 34,000 students and selected experts around the world through access to a wide variety of courses, information and challenges tailored to their age group.

## An International Curriculum

NAIS Pudong offers the English National Curriculum, adapted for our international student body, and IGCSE examinations, up to the age of 16 followed by the International Baccalaureate (IB) Diploma programme.

### English as Additional Language (EAL)

Our structured EAL support courses based around the Cambridge English programme ensure rapid progress for students learning English while attending our core programmes.

### Sports Programme

At our school we aim to provide a very high standard of coaching and competition, while enabling everyone to find something they can enjoy.

### The Arts

Music, drama and art allow students to develop talents and perform at a higher level, but also to take risks, learn how to work with others and learn about themselves.

### Modern Foreign Languages

Our students also enjoy a range of foreign language programmes, starting with Mandarin from the Early Years and throughout all their schooling. Students are offered the choice of another European language (German, French, Spanish) from Year 5.

### Co-Curricular Activities

A wide range of Co-curricular activities are complementary to the curriculum and an integral part of your child's learning and development. We host over 135 different activities for students to get involved in outside of the academic curriculum.

### Learning Beyond the Classroom

NAIS Pudong students have the opportunity to engage in a wide variety of activities designed by educational experts and teachers to broaden their knowledge and nurture transferable skills valuable in school, university and the workplace.

Our students have performed in a Global Orchestra in New York, competed in online debating competitions, built and installed power systems in Tanzania, and toured lava tunnels in Iceland.

## *Embracing Collaboration, Creativity and Curiosity*

### MIT - Nord Anglia STEAM Programme

By tackling real-world challenges across the subjects of science, technology, engineering, art and mathematics (STEAM), your child will develop transferable skills such as flexibility, creativity and communication. They will be encouraged to experiment rather than wait for instructions, and will learn that collaboration and critical thinking can solve even the trickiest problems.

Nord Anglia Education is also working with MIT to introduce your child to this innovative way of learning the STEAM subjects which encourages creativity, experimentation, and teaches them how to apply their skills to real-world situations. Watch our film to learn more about our collaboration with MIT.

## *Preparing your child for the world stage*

### Our Juilliard Collaboration

Music can play a transformational role in your child's education. The Juilliard-Nord Anglia Performing Arts Programme has been designed to give students a deep engagement with performing arts - promoting cultural literacy, creativity, critical thinking and collaboration.

At NAIS Pudong, your child will follow an innovative embedded arts curriculum created in collaboration with The Juilliard School, a world leader in performing arts education. It enriches the high-quality teaching and learning offered in our schools with the artistic values, traditions and expertise of Juilliard.

- University of Sydney

## Outstanding Academic Achievement

### Primary - Academic Rigour

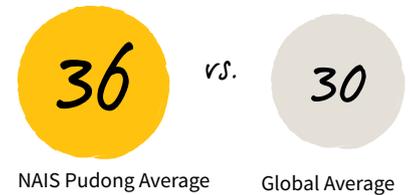

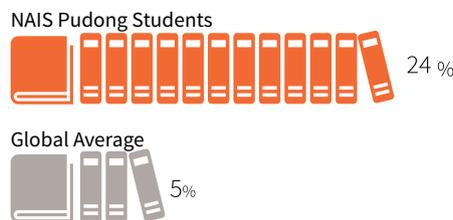

The huge strength of our Primary curriculum is that it is well structured, from the Early Years upwards, with progress measures throughout, so that our highly qualified and experienced teachers, and parents, know exactly how well a child is achieving.

Your child's progress is benchmarked against curriculum expectations for the top schools worldwide. This includes teaching challenging Mathematics tasks, structured English learning through phonics, specialist teaching in Mandarin, Physical Education and Music, and also creative and increasingly structured teaching of Science and Humanities.

### International Baccalaureate Results

In 2016, once again, our students achieved outstanding IB results. This achievement was possible with the strong guidance and support of our highly experienced and dedicated team of Senior School IB teachers.

24% of the class achieved 40 points or above, compared to the world average of 5%

Our NAIS Pudong student, Aidan Wong, achieved an outstanding 44 out of 45 in his 2016 IB examinations
