

# Year 1 Home Learning Menu <sup>29-3-18</sup>

## Starters: Art

-  Draw your very own space ship in your home learning book.
-  Draw the planet Earth in your home learning book.
-  Draw and label your own alien in your home learning book. Remember it can have more than 2 eyes and lots of legs!
-  Using recyclable materials you find around your home, make the alien you designed in your book.

## Main Course – you **MUST** do these every week:

- Have a look at the front cover of a reading book and predict what you think is going to happen in the story. Either talk with an adult or write your answer in your home learning book.
- Spend 10 minutes a day on Reading Eggs.
- Spend 10 minutes on Mathematics.

- Everyone **must** finish the main course every week. **Work must be completed in your Home Learning books and returned to school on Wednesday of each week.**
- If you are feeling *extra* hungry, you can order from the starters. These will focus on a different subject each week. Each dish has a difficulty rating. The more chilies, the more *challenging* the task!
- Why not spend some time tackling some of the family side dishes. Time spent as a family is important and you can learn together whilst having fun.

**Dessert:** Project to be completed by 10th May.

Plant a seed in a small pot or plastic cup with some soil. Remember to water it when you need, and watch it grow. Who can grow the biggest flower or plant?

## Sides: Family Fun

- As a family, go outside at night and look up at the stars. Can you make a story up about what you can see? Or even, can you name the planets that are up there?
