The British School of Kuwait

Kuwait's Premier School

The History of the School

The British School of Kuwait (BSK) traces its origins to 1978 when Mme Vera and Mr. Sadiq Al-Mutawa established a small kindergarten which became known as The Sunshine School. Steady growth took place through the 1980s and, having recovered from the ravages of the 1990 invasion of Kuwait, by 1992 the School accommodated 550 Kindergarten and Primary age students. The decision having been made to serve the community at both Primary and Secondary levels, a move to the present site in Salwa took place and in September 1993, newly renamed, The British School of Kuwait opened to 900 students.

Currently, BSK provides a quality education from Reception to Year 13. These students come from more than 70 countries and follow the National Curriculum of England through to GCSE, IGCSE, AS and A Level qualifications. The school provides a structured, caring and happy environment for learning with excellent resourcing and a qualified, highly-trained and well-motivated staff.

In June 2018 BSK celebrated its Ruby Anniversary, marking 40 years at the forefront of British Education in Kuwait.

The School Crest

The crest of The British School of Kuwait incorporates several aspects of the school's history. The bold sunrise symbolises our students' potential, setting out on their lives of achievement.

The sun also reminds us of the original Sunshine School and its climb to success. The sun is seen rising over blue water with its strong reference to Kuwait where the sun breaks daily over the Gulf on the eastern horizon. Finally, the crest is adorned with branches of laurel, a traditional accolade, in this setting celebrating academic and cultural achievement.

THE EARLY YEARS FOUNDATION STAGE (EYFS)

The EYFS is the stage of education for children from birth to the end of the Reception Year. It is based on the recognition that children learn best through play and active learning.

The EYFS has 4 themes. These are:

1. A Unique Child
2. Positive Relationships
3. Enabling Environments
4. Learning and Developing

Within the theme of Learning and Developing there are 7 areas. All areas are connected to one another.

The Prime Areas of learning

Communication & Language

Physical Development

Personal, Social & Emotional Development

The specific areas of learning

Literacy

Mathematics

Understanding the World

Expressive Arts & Design

Each of the 7 areas of learning has its own set of Early Learning Goals (ELG) which determine what most children are working towards achieving by the end of the Reception Year.

We will be tracking your child's progress towards the Early Learning Goals throughout their time in the Reception class.

EARLY YEARS FOUNDATION STAGE AND ASSESSMENT

We develop an assessment profile of each individual child and provide evidence in the form of a learning journey.

The EYFS Profile is based on ongoing observation and assessment in the three prime and four specific areas of learning including the three characteristics of effective learning.

CHARACTERISTICS OF EFFECTIVE LEARNING

Playing & Exploring

Active Learning

Creating &
Thinking Critically

Levels of Development

We will assess whether the ELG description best fits the child's learning and development. The end of year Reception report will indicate the level.

Emerging

Where a child's learning and development does not yet meet what is expected. There are different development ages bands within this description. BSK end of year expectation is that a child is secure within the 40-60 months development age band at the end of the EYFS.

Expected

Where a child's learning and development has met the UK expected level at the end of EYFS.

Exceeding

Where a child's development exceeds what is set out as that expected at the end of the EYFS. Usually this means they will be already working within the Key Stage 1 National Curriculum.

Children do not necessarily achieve uniformly.

HOW PARENTS CAN HELP

We know our parents are very willing to help with their children's education and only require the tools to do so. This is why we have created the Virtual Learning Environment (VLE).

What is the VLE?

BSK uses a Virtual Learning Environment (VLE) which gives students and parents access online to educational materials and interactive activities.

The VLE enables us to share information with parents about school events, to outline the learning taking place each week and to provide supportive resources and materials that students can use at home to consolidate and extend their learning independently.

Why should we use the VLE?

During a week in school many areas of the curriculum are covered. The VLE gives children the opportunity to follow up their learning by identifying areas that they would like to work on for self-improvement or out of curiosity and interest.

A range of specific/relevant activities will be provided that will enable children to continue their learning at home, consolidating and reinforcing new skills and concepts or challenging themselves to build on developing skills and extend themselves further.

How should the VLE be used?

Every Sunday the learning objectives will be updated and relevant activities displayed.

Talk with your child about what they have enjoyed learning in the week and where they need further practice and then together select one or two activities to do.

We do not expect all of the suggested activities on the VLE to be completed.

CORE VALUES

In the Lower Phase, we aim to give children a positive first experience of learning and understand that a well-rounded education goes far beyond the academic success in the classroom.

We believe in educating the whole child, and our core values are at the centre of everything we do. They underpin our teaching and learning, and provide an environment which prepares our students as confident, responsible and emotionally intelligent citizens who are ready to thrive and succeed in the 21st Century. We place great emphasis on resilience, respect, honesty, empathy and courage as we believe these are the qualities that foster life-long social interaction skills and enhance academic achievement.

We actively promote these core values and encourage children to be:

- **Resilient-** to embrace challenges positively and with determination, learning from their mistakes and accepting feedback as a way to move forward.
- **Respectful-** to behave in a way that shows care towards others, themselves and the world in which they live.
- **Honest-** to tell the truth, despite the consequences, to act with integrity and behave in a trustworthy way.
- **Empathetic-** to sense other people's emotions and imagine how someone else is feeling.
- **Courageous-** to aim high and strive to be the best that they can be, having the confidence to work independently and ask for help when needed.

GROWTH MINDSET

At BSK we know that students who have a positive attitude towards their learning will make good progress and be successful.

We are passionate about nurturing a growth mindset culture in the Lower Phase. We want all students to relish challenges, embrace their mistakes as part of the learning process, value the importance of effort, respond carefully to feedback and take inspiration from others. This will help them to achieve, not only with us, but also in their future lives as adults.

REWARDS, SANCTIONS AND UNIFORM

At The British School of Kuwait we work to ensure that every student feels a valuable part of our learning community. We recognise that positive reinforcement is the most effective behaviour management strategy and that rewards form a significant part of that. Our reinforcement is consistently delivered, timely, age-appropriate and contingent on behaviour.

Our rewards are social, natural and direct, meaning students follow our rules because they understand the benefits for themselves and the school community. These intangible rewards are the strongest pastoral tools we have and are central to our aim of instilling values such as self-reliance, co-operation, honesty and productivity.

Tangible rewards such as stickers and certificates are also often used, though not sweets or toys, as we consider this inappropriate and counterproductive in the school environment.

A Special Word on Uniform: One reason for our uniform rules is that we wish our young students to work in an environment where the focus is on learning, not hair styles, physical characteristics or items of clothing.

No set of rules can capture every circumstance so our polite insistence is that you work with us, understanding that what we do is for the benefit of all our children. Our firm discipline is, after all, one of the reasons parents choose BSK.

Behaviour on the Buses

When using BSK buses, students always:

- Visit the bathroom before boarding the bus.
- Do not visit the canteen before, or after, boarding the bus.
- Once on the bus, to sit in their seat.
- Always wear their seatbelt.
- Are kind to each other and keep the bus tidy.
- Respect the driver as they would a teacher.
- Be kind and respectful to others on the bus.

Sanctions, in line with Rewards and Sanctions policy, will be imposed in the event of these rules being broken.

ATTENDANCE AND PUNCTUALITY

One of the most effective ways in which The British School of Kuwait seeks to improve achievement is by improving attendance, as it is very difficult to raise the standards of children who are not in school regularly.

Consequently, the Lower Phase Head Teacher views attendance as one of his most important responsibilities.

Late students miss out on vital learning, especially phonics teaching, the backbone of language acquisition, which is conducted in the first session of the day. Late students also interrupt the learning of other students; thus the school has an obligation to all children to insist on punctual attendance.

Our target for attendance levels the Lower Phase is 95%.

There should be no unauthorised absence. **The tutor must be informed as to the reason for every absence from school.**

Any other absence is regarded as 'unauthorised'.

BSK has been informed by the Private Education Department at the Ministry of Education (PED) of the consequences for students that accrue unauthorised absence.

BSK registers students twice daily for morning and afternoon 'sessions'.

In Primary, lateness to school after 07.50 (non-Ramadan timing) will constitute unauthorised absence for the entire morning session. It can only be authorised only as a medical or dental appointment upon provision of a clinic or hospital report or acceptable parental explanation.

The school will send a warning letter to parents, by email, if their child accrues five full days or ten half-day sessions of unauthorised absence during an academic year.

DAILY PROCEDURES

The school day is from 07.32 until 14.30 (14.35 for Year 5). The school will not accept responsibility for students before 06.45. Parents leaving their children prior to this time do so at their own risk. Therefore, the school does not recommend this course of action. At 06.45 the entry gate at the rear of the school will be opened to allow students access to Wembley. There is shade, water and toilet facilities and students will be supervised. Students are not allowed into school buildings before the playing of the National Anthem.

If students are late for School they must enter the building via the security office at the side of the building (Gate G).

At the end of the school day students in Years 1-2 will be accompanied to Wembley by their class tutor. Reception students are collected from their classrooms and Year 5 students are released at 14.35.

EMERGENCY EVACUATION PROCEDURE

When an evacuation practice is held, or in the event of an emergency alert, the school fire alarm bell will sound continuously.

- All students must proceed, under the instruction of the teacher, to leave the buildings silently and in an orderly fashion, leaving all bags and personal possessions behind.
- Students will assemble in Wembley. The route is indicated on the Emergency Evacuation notices which is posted in prominent position, close to the door in each room.
- Students must stand in silence for the register to be taken.
- Students will return to class in an orderly way when told to proceed by the member of staff in charge.

WHAT TO BRING TO SCHOOL

We recommend that children only bring to school the things that they really need for the day ahead.

Carrying a very heavy bag can cause back problems so we suggest that students put their Arabic, Library, Homework and Reading folders along with their Student Planner into their book bags. Remember that most books will stay at school and Arabic or Islam books do not need to come to school every day. Please check your child's timetable.

Students can then bring their snack in a smaller lunch bag. Students in Reception come to school in their PE kits on days they have PE. Please make sure that all personal items and books are named

A HEALTHY SNACK FOR YOUR CHILD

We would like parents to provide their child with a healthy and nutritious snack that can be eaten at different breaks throughout the day.

Fruit - An Apple, A Pear, A Bannana, An Orange (already peeled), Kiwi, Pineapple, Melon, Grapes, etc..

Vegetables - Carrots, Cucumbers, Small Tomatoes, Celery, Sweet Corn, Salad, Sweet Peppers

A Sandwich - (brown bread is better) filled with - Salad, Meat, Cheese, Tuna, Egg, and Jam

Drinks - Water, Plain Milk, Fruit Juice

Cereal Bar - Kellogs, Nutri Grain, Nature Valley, Nestle, etc..

Yoghurt or Cheese

Please!
For your safety
No Glass!

Pasta & Rice Dishes

Plain Popcorn and Dried Fruits

Raisins, Cranberries and Apricots

Cereals and Non-Chocolate Biscuits

Rice Krispies, Cornflakes, Oatmeal and Biscuits

No Pizza

No Chocolate

No Chips or Crisps

Please!

For your safety

No Glass!

CELEBRATING BIRTHDAYS

Students' birthdays are celebrated in the Primary Phase as part of our weekly Year Group assemblies. We accept that on their birthdays students like to share a treat with their class. However, please note the following guidelines which are applied for Health and Safety reasons:

- We can only accept pre-prepared, small, individual portions.
- **Small cupcakes, mini doughnuts or small muffins are acceptable, but not the full size ones** as these hold too much sugar and fat, contributing to tooth decay and various diseases.
- The individual cakes should be delivered to Reception or Back Gate G on the day of celebration. **We will not accept whole cakes that need cutting.**
- We do not distribute gifts on these occasions, or light candles nor accept cameras for photos.
- As part of our healthy eating policy cakes, sweets, doughnuts, etc. are not allowed for other special occasions. For example, National Day, special family occasions or events.

Small Cup Cakes

No Peanuts or Nuts Products

Mini Doughnuts

No Cameras

The background is a complex geometric composition of various shades of purple and blue. It features several overlapping shapes: a large circle in the upper center, a smaller circle above it, and various rectangular and triangular blocks. The colors range from deep, dark purple to lighter, muted blue tones, creating a layered and textured effect.
