NORTH BROWARD PREPARATORY SCHOOL

We are an extraordinary community

We cultivate leaders of tomorrow by empowering students today

We develop global citizens who influence beyond borders

We inspire learning without limits

ABOUT OUR SCHOOL

Since 1957, North Broward Preparatory School has been educating, empowering, and inspiring students from early childhood through 12th grade. We've created a supportive environment to accelerate academic achievement and individual growth for each and every one of our students.

We equip our students with the tools to pursue their passions and interests, to find success that is meaningful to them.

ABOUT NORD ANGLIA EDUCATION

We are part of Nord Anglia Education, the world's leading educational organization with campuses in 27 countries across The Americas, Europe, China, Southeast Asia and the Middle East. Together, Nord Anglia's 56 schools educate more than 50,000 students from kindergarten through to the end of secondary school. We are driven by one unifying philosophy: we are ambitious for our schools, students, teachers and staff, and we inspire every child to achieve more than they ever imagined possible.

Every parent wants the best for their child — so do we. As a Nord Anglia Education school, we deliver high quality, transformative education and ensure excellent academic outcomes by going beyond traditional learning. Nord Anglia's global scale enables us to recruit and retain world-leading teachers, offer unforgettable experiences through global and regional events, and create an engaging learning environment so that our students love coming to school.

LETTER FROM OUR HEAD OF SCHOOL

Dear Parents & Students,

It is with immense pride and pleasure that I introduce you to North Broward Preparatory School.

In today's complex world, learning takes place beyond the boundaries of a physical structure. At North Broward Preparatory School, we prepare our students to be adept and agile deep thinkers; to communicate with skill and poise; to forge connections across disciplines and cultures; and to take risks that stretch one's intellect and talents in new directions, with consideration of their impact on the world. Our students thrive as members of our NBPS family and matriculate to the top colleges and universities worldwide.

In addition to a wide range of Advanced Placement courses and academic programs that include the International Baccalaureate Diploma Program, North Broward provides an abundance of opportunities for student learning and growth outside of the classroom. Academic achievement is integrated, complimented and enriched by our fine and performing arts program, as well as our collaboration with The Juilliard School. Our widely acclaimed STEAM program is enhanced by our work with Massachusetts Institute of Technology (MIT). Outside of the classroom, students have the opportunity to participate in a variety of activities including athletic teams, extra-curricular clubs, and community service events among others.

The North Broward Residential Life program provides everything you would want for your child's home away from home: rigorous academics; unique activities and excursions; a dynamic student body; a beautiful, safe and nurturing environment; and a dedicated, caring team of adults who are vested in each student's success. North Broward Prep's brand new, state-of-the-art International Village dormitory which opened this August, is the perfect setting for students to engage with and learn from over 300 residential students from around the world.

If you are seeking a dynamic learning community that offers a truly personalized experience, I encourage you to call our admission office at +1 (646) 813-3438 or email us at na.boarding@nordanglia.com. You will learn in depth about our diverse programs and meet our talented faculty and staff. I invite you to come see our expansive campus and explore all that our school has to offer.

Warm regards,

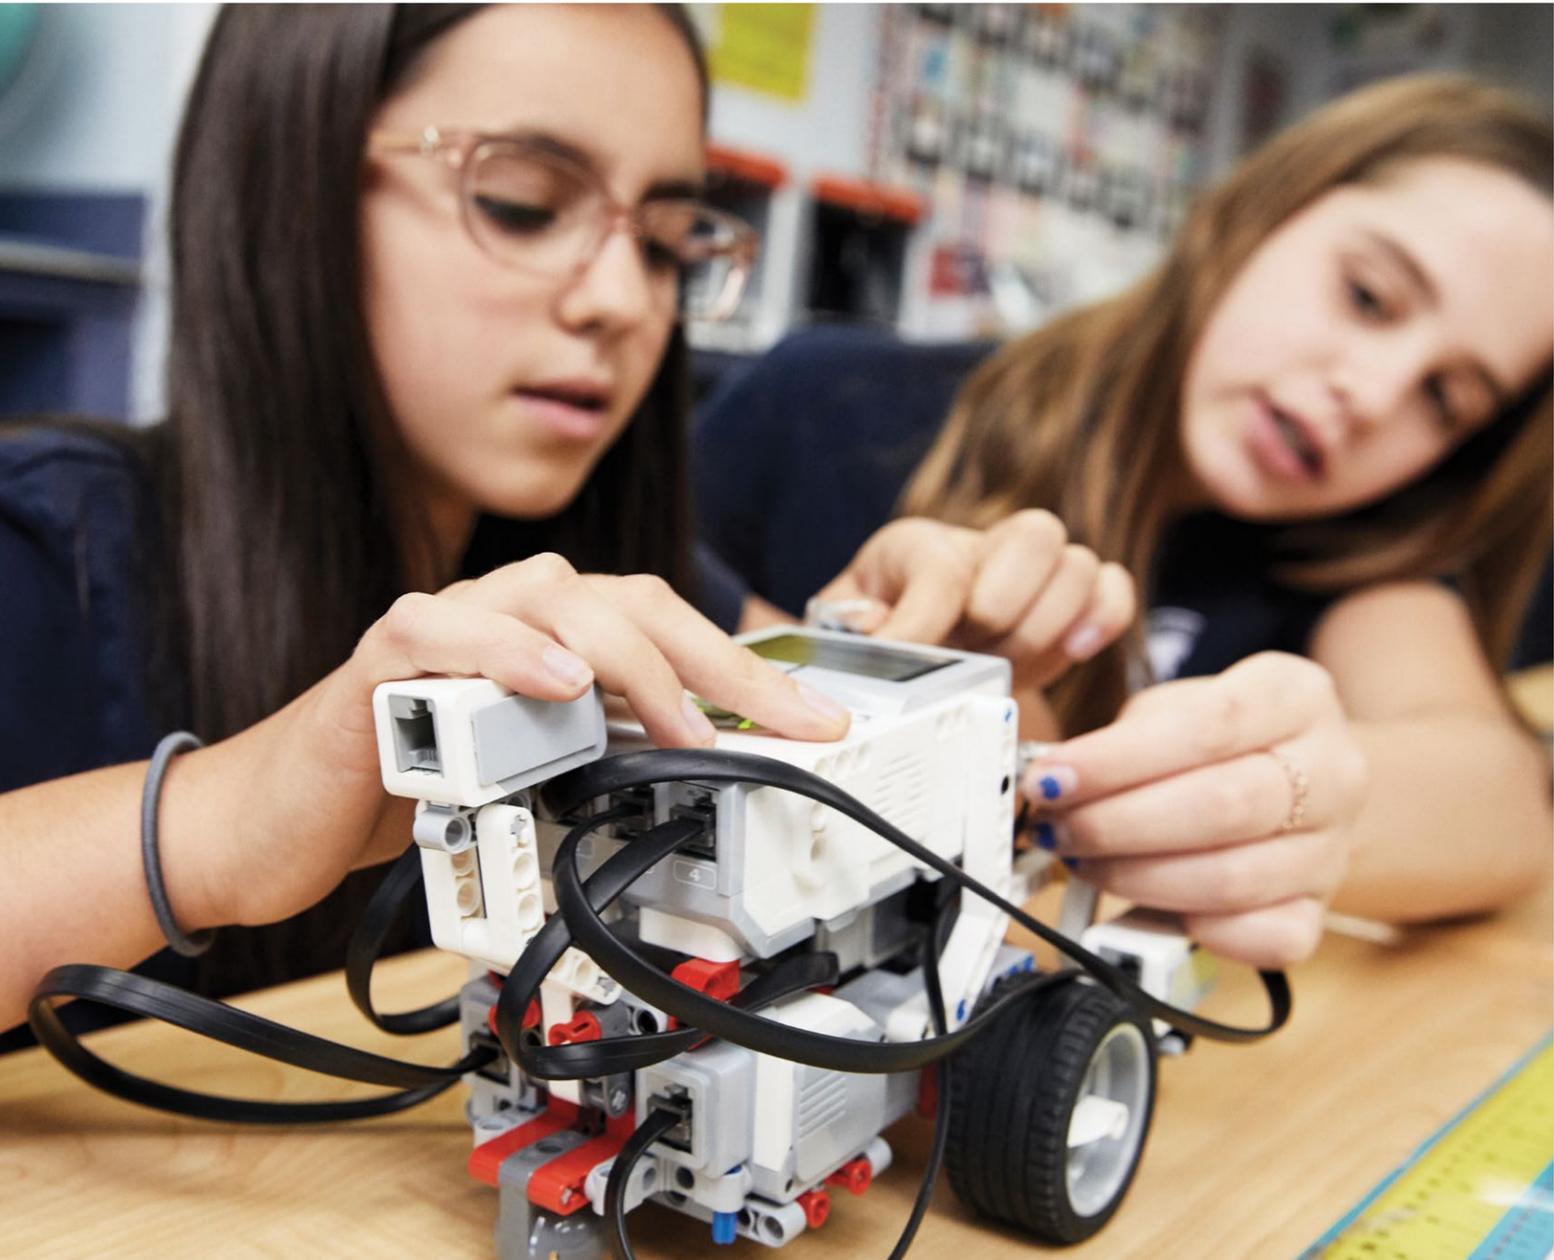

Elise Ecoff

Head of School,
North Broward Preparatory School

WHAT MAKES NORTH BROWARD PREPARATORY SCHOOL DIFFERENT?

REINVENTING EDUCATION

We think beyond traditional education to transform learning. Our multidisciplinary STEAM and Performing Arts curriculum, designed with leading institutions such as MIT and Juilliard, prepares students to take on the issues of tomorrow. Working with UNICEF, we give our students the opportunity to change the world from an early age. As an Apple Distinguished School, we weave technology and innovation into the classroom to get students excited about learning.

INDIVIDUAL APPROACH TO WORLD-CLASS TEACHING

Combining internationally-recognized academic programs with personalized learning, we ensure that each student has the support they need to maximize individual achievement. We understand that each student brings a unique set of strengths and opportunities to our community. In addition to our regular classroom curriculum, we have a dedicated program, Lighthouse Point Academy, that addresses the needs of students with mild-learning differences and ensures that they can succeed.

HOLISTIC INNOVATIVE LEARNING BEYOND THE CLASSROOM

We're committed to developing well-rounded students with skills beyond the classroom that prepare them for the future. Our diverse extracurricular activities, athletic programs, service initiatives and worldwide expeditions develop confident leaders with a strong global awareness. On campus, our dedicated wellness center helps students develop mindfulness and resilience for dealing with everyday challenges.

A TRULY INTERNATIONAL COMMUNITY

North Broward Preparatory School is first and foremost a multicultural community. With a residential program that unites students from 24 countries, we celebrate difference and encourage cross-cultural understanding. As part of Nord Anglia Education's Global Campus, we give students the opportunity to gain an international perspective by connecting with their 50,000 peers around the world. At North Broward Preparatory School, students are embraced and encouraged to succeed on their own terms.

“You can be comfortable with who you are. If you don't speak English well you can practice more with people who do. Be comfortable and excited about the whole experience because it really is life-changing.”

— Binta, Nigeria

HEAR FROM OUR PARENTS

There are many things we could share about our extraordinary community at North Broward Preparatory School, but we would rather let the results speak for themselves.

97%

of parents say their child receives a high quality education from NBPS

Top 20 School - Most Advanced Courses
Offered

Academic success begins with breakthroughs in the classroom. Designed in collaboration with education pioneers, our curriculum nurtures creative and agile students who aren't afraid to think outside the box.

“The teachers are great here. In other schools that I've gone to, they never taught like here. At North Broward Preparatory School, they focus on you as an individual.”

— Killian, France

TEACHING FOR THE FUTURE WITH STEAM

We live in a complex world — solving its problems requires creative and critical thinking. Whether it's curing cancer or combating climate change, our most pressing issues require input from across disciplines. Working with the Massachusetts Institute of Technology (MIT), we are excited to offer a holistic STEAM (science, technology, engineering, art and mathematics) education that teaches students how to solve for the future.

IMMERSION IN TECHNOLOGY

Our interdisciplinary STEAM program, created in partnership with MIT, is all about giving your child the tools to achieve more in our tech-driven world. Through hands-on problem solving, interdisciplinary learning and developing transferable skills, our STEAM program immerses students from an early age in the intersection of programming, engineering, robotics, and design.

LEARNING FROM LEADING THINKERS

Our students and educators have the once-in-a-lifetime opportunity to learn from leading MIT scientists in person. Every spring, North Broward Preparatory students visit MIT to discover the innovations shaping their future. They engage in hands-on activities from building robots to bioengineering to coding. Our STEAM teachers also participate in MIT training workshops, where they are exposed to the forefront of STEAM thinking through discussions with leading researchers.

OUT-OF-THE-BOX CHALLENGES

Uniting their knowledge of science and technology, our in-school challenges invite students to try and find innovative and creative solutions to the world's greatest puzzles. In a previous challenge, North Broward Preparatory students blended ingenuity and imagination with Nord Anglia Education peers from around the world to construct a chain reaction machine. Amazing things happen when you ignite the natural curiosity of youth with the innovative mindset of a top research university.

HANDS-ON EXPERIMENTATION

We are a community of learners and innovators. Our Fab Lab is the centerpiece of our STEAM program, where our students can create prototypes using 3D printing, laser cutters, foam cutters, vinyl cutters and other amazing tools.

“I was on the Robotics team. The teachers and team members are great. I plan to study Chemical and Aerospace Engineering in college.”

— Guo Jingzi, China

ACHIEVEMENTS

STEAM & ROBOTICS

North Broward Preparatory School hosted the FIRST Tech Challenge mid-level robotics competition.

HIGH SCHOOL

Sam Lewittes, Madison McEwen and Madi Wilson won the Congressional App Challenge

HIGH SCHOOL EAGLEBOTICS TEAM

- FIRST Alamo Regional
 - 2nd place after 80 qualifying rounds
 - Pit Safety Award
 - Creative Award
- 2017 Solar Car Competition - 2nd Place
- Bayou Regional Image Award

MIDDLE SCHOOL EAGLEBOTICS EAGLETS (BOYS' TEAM)

- State Tournament
 - Strategy and Innovation Award

MIDDLE SCHOOL EAGLEBOTICS EAGLETTES (GIRLS' TEAM)

- State Tournament
 - Rising Star Award
- MATE ROV Florida Regional Product Demonstration
 - First Place
- MATE ROV Florida Regional Product Demonstration
 - 3rd overall performance
- All Girl Underwater Team (H20bots)

SPARKING CREATIVITY AND CONFIDENCE WITH THE ARTS

The value of an arts education extends far beyond the studio or stage. The creativity and confidence that students develop in the arts sets them up for academic success and beyond. In collaboration with the renowned Juilliard School, we are proud to provide quality opportunities for your child to advance as bold creators who can express themselves, and innovative thinkers who view the world in new and insightful ways.

COLLABORATIVE TEACHING

Our collaboration with The Juilliard School brings teaching artists to our school every year. Through workshops and master classes, they inspire and mentor our next generation of performers.

EMBEDDED CURRICULUM

Our performing arts curriculum incorporates Juilliard teaching materials to enrich our students' learning experience. Our students learn from a Juilliard-curated repertoire that encompasses a broad range of genres, styles, and cultures. Engaging activities developed by The Juilliard School help our students develop creative skills such as improvisation and composition. Our outstanding teachers use the Juilliard Creative Classroom, an online resource of teaching materials, recordings, and videos, to support your child in engaging deeply with music.

“I loved participating in Macy Sullivan’s class. It let us explore concepts that we don’t usually cover in everyday classes. Like all of the guest artists who participate in the Juilliard collaboration, she had so much information and unique insight when teaching that made the class a very educational and enjoyable experience.”

— Nya, USA

LEARNING BEYOND OUR CAMPUS

Through our collaboration with The Juilliard School, we offer an intensive two-week program, Summer Performing Arts with Juilliard, that allows all students to learn from Juilliard artists and faculty. This is a unique opportunity for students who are passionate about music, dance and drama to engage with the subjects on a deeper level. The programs are offered at three of our sister schools: Collège du Léman in Switzerland, Nord Anglia Chinese International School in Shanghai and Winderemere Preparatory School in Florida.

ART ACROSS DISCIPLINES

Collaboration is at the heart of North Broward Preparatory School's culture. Our cross-arts and arts-integration projects break down the walls between the arts and academic disciplines, promoting innovative thinking and meaningful learning. Equally important are community collaborations through which we guide our students to use their creativity in community service, positively influencing the lives of others by sharing their time and talents.

STATE-OF-THE-ART FACILITIES

North Broward Preparatory School has always strongly supported the arts. Our extensive facilities include 3 dance studios, 4 visual art studios, 3 media arts labs, and 10 private music lesson studios. We also offer excursions to world-renowned performing arts venues such as Carnegie Hall.

“For a student who is a first-time composer, it was very exciting to have my piece performed live in concert. Our Juilliard facilitator, Jessica Meyer, and the talented musicians were extremely gracious and kind, and my first experience with composing could have never been so successful without them. I look forward to collaborating again with Juilliard on another composition in the near future!”

— Gianna, USA

DEVELOPING TOMORROW'S LEADERS WITH THE IB DIPLOMA

At the heart of North Broward Preparatory's high school curriculum is the International Baccalaureate Diploma Program, a holistic and academically rigorous course of study that prepares students for global success. Spanning a wide range of disciplines and languages, the IB Diploma challenges students to be intellectually curious, culturally aware and multilingual.

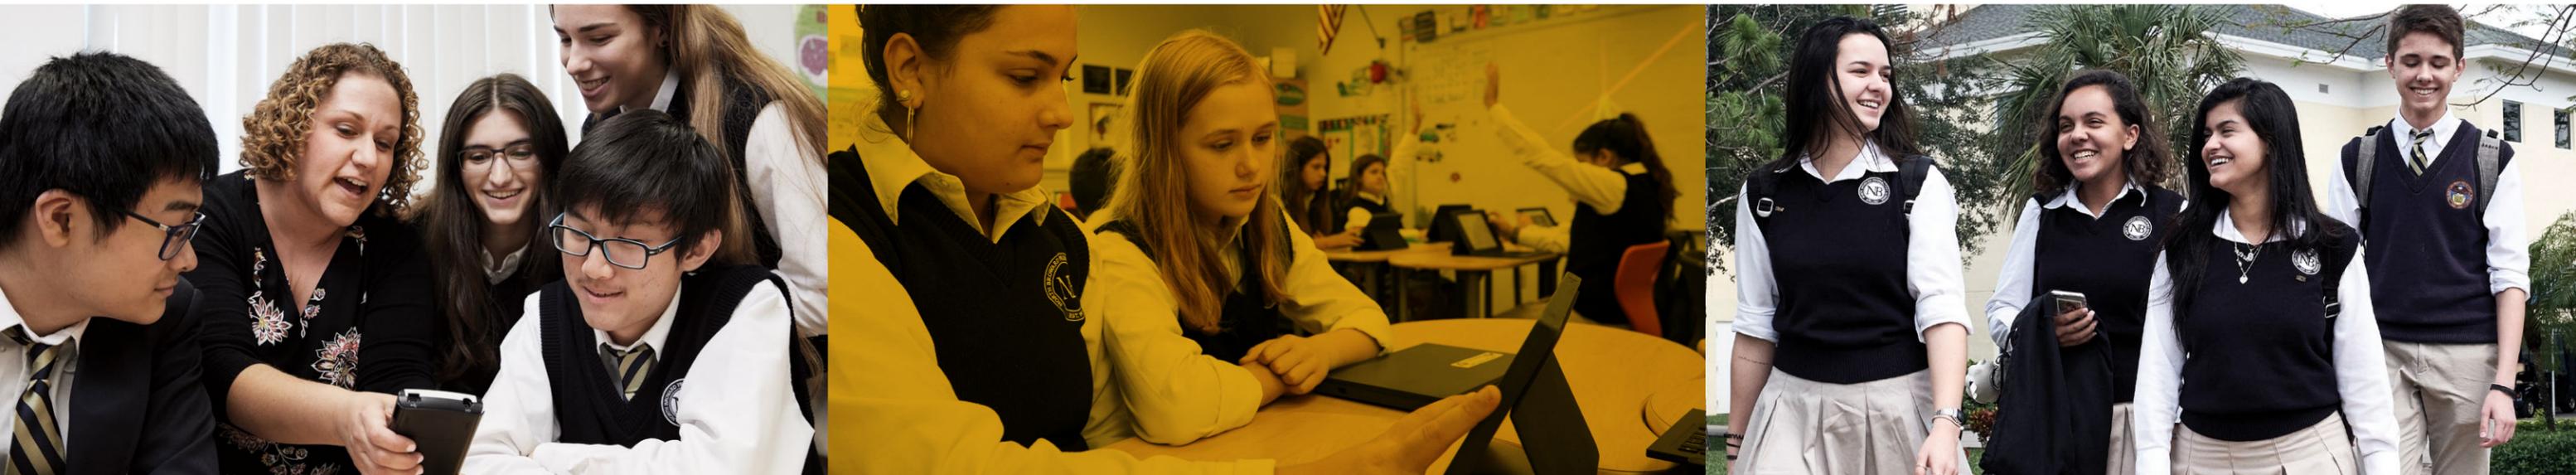

LEARNING ACROSS THE LINES

Students follow an interdisciplinary curriculum that encourages critical thinking across subjects. They take courses in six areas - language and literature; language acquisition; individuals and societies; sciences; mathematics; and the arts - in addition to studying the Theory of Knowledge, completing a research-based Extended Essay and participating in extracurricular programs based around Creativity, Action and Service (CAS).

TAILORED FOR PERSONAL SUCCESS

Teachers work closely with students to create a personalized schedule aligning with their interests, strengths and goals. Our students significantly outperform the International Baccalaureate average on nearly every academic measure.

A CLOSER LOOK AT THE IB DIPLOMA

Group 1 Studies in Language and Literature

- Giving students the skills to critically analyze language and become expressive communicators.

SUPPORTING STUDENTS' EVERY NEED

North Broward Preparatory is proud to have a diverse learning community with different backgrounds and abilities. Our teachers strive to support students' personal needs and create a personalized learning journey that ensures their success. We invest in our teachers' long-term professional development, so that they can bring cutting-edge practices to the classroom.

ESOL PROGRAM

Our ESOL program ensures that every student has the language skills to succeed academically and beyond. Following a rigorous curriculum that promotes active participation and student-centered learning, the ESOL program focuses on improving students' English writing, speaking, reading and listening.

The program delivers intensive instruction for grades 6-12. Students can place into one of five proficiency levels, determined by an assessment given on arrival. In order to ensure success of our English Language Learners, ESOL classes are tailored to the cultural needs and individual proficiencies of the students.

LIFELONG PROFESSIONAL DEVELOPMENT

We deliver continuous professional development with top institutions worldwide, enabling our teachers to bring innovative ideas to your child's education. Through our Executive Master's

in International Education, designed in partnership with King's College London, our educators master the latest strategies in digital teaching and international education. As part of our STEAM program, North Broward Preparatory teachers are trained by MIT's leading thinkers to deliver cutting-edge ideas to students. Our teachers also benefit from Nord Anglia University, a global community of teaching professionals, which empowers them to share expertise and best practices.

ROOM TO LEARN

Our state-of-the-art Learning Commons has dedicated spaces that foster sharing and connection during class time. Highlights include four rooms for collaborative work, as well as the Einstein classroom for research lessons. Beyond the 20,000 physical books available in Learning Commons, students can access over 100,000 eBooks and audiobooks, as well as 20 databases, 24/7 from our Virtual Library.

WORLD-CLASS INSTRUCTION

Teachers do more than provide an excellent education – they lead, inspire, and excite students to reach their full potential. With an eye for emerging education trends and a focus on individual learning, our educators provide world-class instruction that drives continuous growth.

INTEGRATING TECHNOLOGY AND EDUCATION

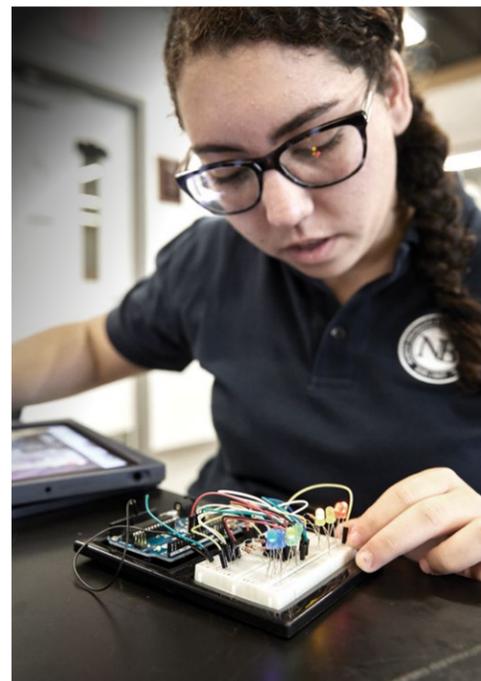

Today's students are digital natives. Technology is embedded in every aspect of their lives, and education should be no exception. In our digital classrooms, we teach students to harness technology for effective research, communication and collaboration from the very beginning. We emphasize the importance of leaving a positive digital footprint. In doing so, we create agile students who can easily adapt to future challenges.

APPLE DISTINGUISHED SCHOOL

NBPS strives to be a leader in tech-enabled learning. 117 of our faculty members are Apple-certified educators. We're proud to offer an iLearning program that uses Apple technology to deliver personalized lessons. Each student at NBPS receives a 1:1 iPad for learning reflection, collaborative work and more. The technology empowers students to communicate their ideas in bold and creative new ways. We are recognized as an Apple Distinguished School for innovation, leadership and educational excellence in the learning environment.

GOOGLE-CERTIFIED EDUCATORS

Our teachers harness Google for Education tools to transform learning in the classroom. NBPS is delighted to have 17 Google Certified Educators, as well as a Google for Education Certified Trainer who can deliver professional development to the rest of the team.

EDUCATION FOR ALL

To build a community of extraordinary learners means creating a learning environment that is inclusive of all students. At North Broward Preparatory, we have dedicated resources to assist our students with distinct learning styles and challenges.

LIGHTHOUSE POINT ACADEMY

Lighthouse Point Academy is a program designed to help students with mild learning differences. The courses, taught by specialists in the field, offer personalized learning and prepare students for the rigor of higher education.

Students undergo extensive evaluation before enrollment, so that our educators can pinpoint their exact educational needs and create a plan for action. Our small class sizes enable teachers to work one-on-one with students to build confidence and improve their learning skills.

ACADEMIC EXCELLENCE

PREPARING FOR COLLEGE AND BEYOND

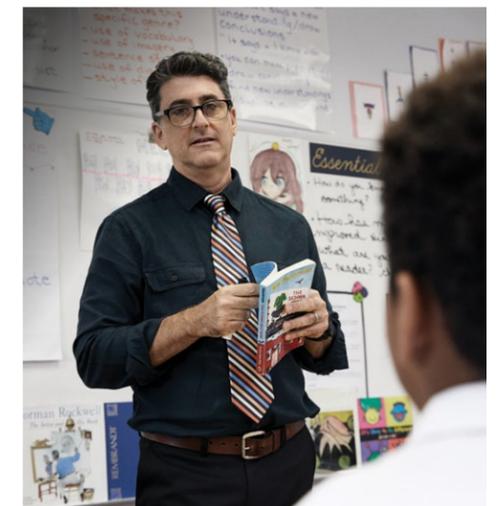

We ensure that our students are in the best place they can be to secure entrance to their university of choice. We provide dedicated college counselling to each and every student starting from 9th grade to build up their profile and outline a roadmap to success. Our wide variety of courses, from honors to AP to the IB Diploma, ensures that our students will have exceptional academic credentials to stand out from the crowd.

COLLEGE ACCEPTANCES

Our comprehensive instruction prepares students for the demands of higher education. 100% of NBPS graduates have been accepted by universities in the United States and around the world.

ENGAGEMENT BEYOND THE CLASSROOM

North Broward Preparatory School's impact on its students extends far beyond the walls of the classroom. Through our diverse portfolio of extracurricular activities, international excursions and community initiatives, we widen students' scope of knowledge and stretch the limits of their imagination.

LEARNING THROUGH SERVICE

At North Broward Preparatory, we strive to create an extraordinary community that stretches beyond the limits of our campus. Service fosters a positive relationship between the student community and the wider world in which we live.

INTEGRATING SERVICE INTO EDUCATION

We are strong believers of service learning - integrating the insights from community service into the larger school experience. We work closely with UNICEF to teach our students about the United Nation's Sustainable Development Goals, and provide opportunities to work towards them on a local, national and global level. Meaningful community service develops students who recognize community needs and understand social justice. Examples of our own service learning projects include gathering food and clothing for those in need, participating in environmental clean-ups, and tutoring students in our community.

FOSTERING GLOBAL CITIZENSHIP

Through Nord Anglia's Global Expeditions, North Broward Preparatory students can impact the international community in service trips to Tanzania. By taking part in sustainable development projects, from teaching in local primary schools to working on local village construction, students develop project management and leadership skills while learning the value of helping others.

BROADENING HORIZONS OFF-CAMPUS

At North Broward Preparatory, our mission is to transform students into socially responsible and culturally aware members of the global community. This starts with off-campus excursions, local and international, that engage students in interesting ways.

ACHIEVING PERSONAL MILESTONES

From a remote base in Les Martinets, Switzerland, our Middle School students engage in a Personal Challenge that teaches them orienteering skills, encourages them to take risks and persevere in the face of challenges. Their June adventure begins with a 2-day hike into the Swiss Alps. Students will also visit a glacier to learn about climate change. The trip culminates with cultural excursions revolving around chocolate and cheese production in Switzerland. The challenge is a great opportunity for students to interact with peers from the Nord Anglia network all over the world while improving their leadership, teambuilding and global awareness.

IMPROVING CULTURAL UNDERSTANDING

As part of our extensive fine arts program, North Broward Preparatory students can participate in cultural excursions to art galleries, museums, performances and concerts in renowned venues such as Carnegie Hall and Juilliard. We believe that exposing students to world-class art will spark inspiration and open their eyes to creative careers.

INSTILLING RESPECT FOR THE ENVIRONMENT

We want our students to be caring and responsible citizens who make a positive impact on the planet. Our eco excursions, which range from learning about marine life from the perspective of a science boat, to visiting science centers, botanical gardens and Native American reservations, help our students understand the environmental challenges that we now face.

SURPRISING AND DELIGHTING STUDENTS

In order to enrich the North Broward Preparatory experience for residential students, we host a variety of recreational trips including amusement park visits, boat excursions, canoeing, kayaking, rafting, camping, skating, archery, and shopping. Students also enjoy festivities such as back-to-school parties, holiday talent shows, homecoming and end of year celebrations.

EXPLORING ACTIVITIES OUTSIDE THE CURRICULUM

At North Broward Preparatory, there are ample opportunities for your child to get involved in the community and explore their interests outside the curriculum. Our clubs unite our diverse student body and synthesize perspectives from athletics, the arts, student government, academic competitions, and philanthropy.

DEVELOPING THE WHOLE CHILD THROUGH ATHLETICS AND WELLNESS

Physical and mental health play a big part in student success. We provide the opportunities and resources for our students to develop a healthy body and mind. Athletics help our students cultivate a strong work ethic, confident leadership skills and the ability to collaborate with others on a team. Our wellness programming strengthens resilience to challenges.

SPORT FOR ALL LEVELS

Our athletic offerings span from competitive programs for elite athletes to intramural programs that help students stay active. Starting from grade 6, we offer 15 different sports for all abilities. Students can join over 50 teams that compete on multiple levels. During pre-season and off-season, we continue to offer full-time training with certified strength & conditioning coordinators.

HOLISTIC WELLNESS

Reflecting our commitment to developing well-rounded students, North Broward Preparatory debuted a state-of-the-art Global Wellness Center in 2017. Not just for elite

athletes, the Global Wellness Center equips students with the tools for lifelong wellness. Events at the center focus on physical and emotional health; mindfulness and stress management; as well as creative problem-solving in a global environment.

SUPERIOR FACILITIES

Our brand new facility features weight rooms, multi-use courts, classrooms, and a conditioning facility – everything students could need to maintain their fitness. In the surrounding sports campus, a lighted stadium and baseball field, five tennis courts, and three swimming pools enable students to play sports in all seasons.

LIFE AT NBPS

Students will find their home away from home in North Broward Preparatory’s vibrant community. On our picturesque campus of almost 80 acres, we welcome students from Florida and around the world with a caring and nurturing environment. Our devoted staff provide all the resources that they might need to grow and thrive.

OUR RESIDENTIAL PROGRAM

Boarding students will feel right at home in our new International Village. Housing two students per bedroom, the building is complete with its own lounge/snack area, common area, study area, and Wi-Fi among other amenities, designed to foster a sense of community. Our experienced Residential Life team cares for boarding students and provides them with everything they need to succeed, academically and socially.

SAFETY FIRST

At North Broward Preparatory School, the safety and security of our students and staff members is of utmost importance. The North Broward Prep Safety and Security Team provides continuous, year-round security on campus. Security professionals and police officers patrol our campus and respond to any emergency 24 hours a day.

We want students to enjoy the expansive activities and outdoor spaces of our campus in a safe manner. Our stringent security measures, regularly reviewed and updated to ensure student safety, include:

- Raptor System Visitor Management System
- Thor Guard Lightning Detectors and Alert System
- CCTV cameras throughout campus
- Campus-wide Public Address System
- One-button lockdown system for all exterior doors
- Nightlock classroom barricade devices in every classroom
- Bullet resistant window film on all first floor glass doors and windows in all buildings
- Full-time nursing staff
- Faculty and staff certified in First Aid, CPR, concussion protocols and defibrillator use

In addition, North Broward Preparatory School’s leadership team and faculty attend regular trainings and seminars on safety, wellness and emergency preparedness and response. This school year, all faculty and staff will be trained in ALICE (Alert, Lockdown, Inform Counter, Evacuate), highly regarded as the best program for active shooter response training.

“Dorm parents are your friends because you can come to them and ask any questions, either personal or about school. If you have any problems, they are always happy to help.”

— Kate, Russia

WORK AND PLAY

Entertainment awaits our students once classes end on Friday. Whether it's going to the beach, watching a professional baseball game or visiting a museum, residents will always feel fulfilled on weekends. Outings are planned with students' interests in mind, and offer great opportunities for residents to make lifelong friendships and build a community. On Sunday afternoon, there is time allotted for quiet study and prep work for the week ahead.

“Weekend trips include activities you never thought you’d be doing in your life, with friends you just made. You will make great friends here and have so many opportunities to grow as a person and in a group – not only as an individual.”

— Vanessa, Brazil

MENTAL WELLNESS

Our staff in-residence supervise the boarding facilities and support the social and emotional well-being of students. Students can access an on-site medical clinic, registered nurses, school counselors, and outside physicians to address any health issues. If parents have any questions or concerns, they can reach a member of our staff 24 hours a day, seven days a week.

FOOD FOR THOUGHT

At North Broward Preparatory, we understand that nutrition is crucial to student success. Our dining partner, FLIK Dining Services, provides a variety of healthy food options and flexible meal plans that cater to students' dietary requirements. In addition, FLIK works with us to teach students how to make sound dietary choices for a lifetime.

“Being a residential student at North Broward Prep is really fun! The day students treat you as equals here, so it’s a wonderful experience.”

— Nam, Vietnam
