

General Aim of the subject

Drama provides a safe environment in which students can explore personal and social issues and collaborate to explore ways of communicating ideas through performance skills. It encourages self-expression, problem solving and creative thinking.

By offering Drama at BIS Abu Dhabi, we aim to develop the ability to work as part of a group and individually; to engage with local and global issues, preparing for later life; to experience a wide range of performance skills and styles; to explore ways to communicate with various audiences and to build confidence and self-esteem
