EYFS FLIPs

Introducing FLIPs – a unique learning tool designed specifically to better meet the remote learning needs of our EYFS students.

What is FLIP

A FLIP (Fun Learning Interactive Pack) is a package of learning resources designed to support and enhance the learning of our very youngest students in the home environment.

What is in a FLIP

In each student's FLIP is a range of resources with activity guidelines to structure the learning in the key areas of:

- Phonics
- Maths
- Talk 4 Writing
- Understanding our World
- Fine Motor skills
- Chinese

Do I need to buy any equipment or material for my child?

No, parents do not need to purchase anything. All of the necessary resources will be provided in the pack for the outlined activities.

How will I know what to do with the resources?

In each FLIP there will be Activity Cards. The activity cards will:

- outline the learning objective for each activity
- have a photo showing which resources to use
- provide suggestions on how to approach the activity with your child
- provide translations in Chinese

When can I collect my child's first FLIP?

FLIPs will be ready for collection from the school's Security Office as follows:

- Tuesday April 14
- Between 10am and 2pm

Parents can collect their child's FLIP from the Security Office and sign a form indicating they have collected it. Parents cannot enter the school campus. Parents are asked to please wear a mask when they come to collect their child's FLIP.

When do I return the FLIP or get a new one?

Parents are welcome to keep all of the resources in their child's FLIP. We ask only that you return the bag labelled with your child's name so that it can be reused. When parents return their child's FLIP they can collect a new one. We envisage that this will be every two weeks. EYFS parents will receive notification from Ms Chesaru when new FLIPs are ready for collection.

What about the online learning on Tapestry – should my child still do this? Will it be the same content as the FLIP?

The learning on Tapestry and the learning provided through FLIPs will cover the same content and learning objectives. However, the learning provided through a FLIP will be able to be more hands' on, making best use of the appropriate concrete materials provided by school.

Parents and students should still make use of Tapestry to watch the videos posted several times per week by their class teacher.

Who do I contact if I don't understand something about my child's FLIP?

Teachers are ready to support parents every day as needed. Please contact the following staff members:

- Teddies: Kayla Bott kayla.bott@britishschool.org.cn
- Nursery: Mihaela Chesaru Mihaela.chesaru@britishschool.org.cn
