

ST. ANDREWS

International School Bangkok

A NORD ANGLIA EDUCATION SCHOOL

"Our mission is to provide an inclusive, international education in a safe, happy, supportive and stimulating environment where all the needs of the individual learner are met. Students are inspired to be the best they can be, enabling them to become responsible global citizens."

Physics/Science Teacher

Physics is a popular and well-established subject at St. Andrews and we are looking for an experienced and inspiring teacher to join the Science team. Class sizes are small and the students are motivated and enthusiastic, enjoying a lively approach to the subject through a wide range of teaching and learning techniques. The ideal candidate will convey enthusiasm for the subject and contribute collaboratively in the continued development of the curriculum from Year 7 to Year 13.

August 2017 will be a very exciting time to join St Andrews, as we open our new 11-18 Campus, with the purpose-built Biology, Chemistry and Physics laboratories being located, along with the Art and Technology rooms, in a beautiful building with a glass-roofed atrium.

All students study Science throughout Key Stage 3, with schemes of work based on the English National Curriculum but adapted to reflect both the international nature of our students and to better prepare them to study single Sciences at both IGCSE and IB. At Key Stage 4, all students must study at least one Science, with many studying two or more, chosen from Biology, Chemistry, Physics and Environmental Management. In Key Stage 5, all students must study at least one Science as part of the IB Diploma Programme, with many students studying two chosen from Biology, Chemistry, Computer Studies, Design Technology, Environmental Systems and Societies and Physics.

Physics is a popular subject at both IGCSE and at IB, and previous experience teaching these courses would be a significant advantage. We would, however, also welcome applications from those newer to the teaching profession - St Andrews would be a great school to develop as a professional early in your career.

At St Andrews, we pride ourselves on being an inclusive school, and have an excellent reputation for supporting children with special educational needs. Experience of teaching children with dyslexia, mild autism, ADHD etc. would be very good prior experience for a teacher wishing to join our team. Our Mission Statement commits us to meeting 'all the needs of the individual learner', and this applies equally to those students targeting the very highest grades at IGCSE and IB.

All Science classrooms have data projectors and interactive whiteboards and access to the internet, and there is a strong commitment to integrating the teaching and use of ICT skills into all areas of the curriculum, where appropriate, with laptop carts, iPads and ICT labs bookable when required. As well as their teaching, all teachers are also expected to contribute positively to both the school's pastoral systems and the extra-curricular programme, offering an Extra-Curricular Activity that either supports or extends the students' learning in their subject area, or from another area of personal interest.

Click [here](#) to complete the application process through Jobtrain. If you require any further information, please email recruitment@standrews.ac.th. The closing date for applications is **Monday 16th January 2017**.

All previous applicants are still under consideration, so should not re-apply.
