Global Campus

Monday 10th December is the deadline for the Global Campus Student Leader applications. Please talk to or email Ms Burk for more information.

A special shout out to Anushka in Year 7AB, she is 2nd on the student leader board for the Global Campus at the moment for her involvement in the Global Campus Online. Well done!

Sports Report

Unfortunately due to the weather the only fixtures this week were the U16 Boys basketball who lost 53-50 to ICS and the U14 Girls Football who lost 5-2 against CHIS.

Our subject in the Spotlight this week is ASDAN and Business Studies

Year 7: Year 7 students have been working on their study skills this term and have been developing their organisational skills and strategies in order to produce work of an even higher standard.

Year 8: Students have been presenting their posters about social relationships and how to resolve conflict. They have also been reflecting on this term's work and deciding what topics they would like to explore in the coming future.

Year 9: Students have been creating a survey on google classroom about friendships to explore a range of social issues.

Year 10: In Year 10 ASDAN Employability we are looking at the job application process. They are completing every stage for their chosen career, including a mock interview.

In Business Studies students are exploring the threats and opportunities of globalisation and are preparing for their end of term Harkness Debate on this topic.

Year 11: In Year 11 ASDAN CoPE students have been completing their portfolios by tackling a range of independent tasks. Some students have been caring for animals in their spare time whilst others have been learning how to use the mixing desk and lights in the Cooper Hall for a variety of school performances.

In Business Studies, students are learning about the different types of financial and non-financial methods of motivation - a fun and relevant topic that has stimulated interesting discussions.

Update from IB Coordinator: Our Year 13 students presented their Extended Essay (EE) work to parents and Senior Leadership at our inaugural CoffEE Morning last week. It was wonderful to see the results of their independent research and the findings and conclusions they came to. The Year 12s on the trip to Borneo returned safely and with some fantastic stories of their adventures.
