

My Weekend

On Friday night my friends and I slept over at the boarding house. We played dead chess and I really enjoyed it. After we wanted to cool down so we went to swimming. We swam for quite a little while and then we went for dinner in the school canteen. I had yummy spaghetti for dinner. After that I had a

shower and went to bed. On Saturday morning we woke up and got ready to go to the science museum in Bangalore. When we got there we went to space land to look at all the different planets and stars. Then we played on a racing car and built some lego. I got a bit thirsty so took my friends to go and buy some drinks and ice creams.

At lunch time we were given some sandwich and hot chocolate, then we headed back to school to pack and had a big pizza for dinner. I really enjoyed my weekend out with friends.
