Getting started

An introduction to Nord Anglia University

About Nord Anglia University

Nord Anglia University offers you more opportunities to progress, learn and collaborate with fellow Nord Anglia professionals around the world. Our unique e-learning platform and global professional development opportunities give you a competitive advantage. By exchanging ideas on best practice and exploring a wide variety of resources and seminars, you can stay on the leading edge of your career.

Learn from the best

We are ambitious for our students, our people and our schools. When you join a Nord Anglia school, you join a global community of more than 8,000 people working together to support our students' success. Our collaborations with world leading institutions, such as the Massachusetts Institute of Technology (MIT), The Juilliard School and King's College London, will give you exceptional experience and career development in a fast-paced and creative environment.

Opportunities on a global scale

Access to our global network of schools offers you the opportunity to move between our schools and locations worldwide.

A Global Professional Learning Community

Nord Anglia University is a professional community available across the Nord Anglia Education family of schools. Exclusively available to NAE staff, Nord Anglia University lets you learn through seminars, online learning resources and a global teaching community. Use this booklet to get started in Nord Anglia University and discover for yourself what it can do for you.

Nord Anglia University *features*

New features

NAU is available to all of our people, wherever you are. Our upgraded website gives you access to a world of resources at your fingertips — whether you're on the go or teaching a lesson. Anyone with a mobile device or tablet can now log in to NAU to see the latest case studies, community discussions and research. Our new language feature translates all content on the NAU website into over 50 languages, so that Nord Anglia professionals around the world can communicate and learn together more easily. Streamlined information is also more accessible through our improved search feature.

Communities

Discuss topics that matter to you and share your experience with fellow Nord Anglia professionals. Post questions on communities and learn from others online who have similar experiences and expertise.

Leadership Programme

Develop your leadership skills through collaboration. Our courses and community spaces allow you to keep up with the latest thinking in our global professional community by working with others in a leadership role.

Study courses

Take part in structured and engaging online courses that last for 4-6 weeks, in collaboration with our teaching fellows and NAE staff. Cover key themes, frameworks and subjects in depth. Courses hosted in the past include using technology in the classroom, and teaching English literature more effectively.

Self-study courses

Challenge yourself to complete one of our online courses which will help you reflect and work with others to understand your own practice. A framework and checklist will guide you on your learning journey so that you can set goals and develop your career.

Seminar series

Watch video clips of leading experts in their field. This programme, produced in conjunction with the Oxford University Press, features topics such as language change in the digital age, and learning in the international classroom.

Research

Browse our extensive online research materials which provide access to thousands of articles, journals, e-books and videos, which are only available through subscription services.

*Professional development
at your fingertips*

Learning from *the best*

MIT

Our collaboration with the Massachusetts Institute of Technology takes a unique real-world, hands-on approach to teaching the STEAM subjects. STEAM discipline teachers will benefit from unique professional development opportunities through annual workshops and ongoing training at the highest ranking university in the world.

Juilliard

The Juilliard School

Nord Anglia teachers will have the opportunity to participate in training sessions with Juilliard. This will enhance their subject knowledge and skills whilst providing opportunities for networking across our family of schools. Our vibrant Juilliard community on NAU is managed by our Curriculum Fellows. They will share the latest programme information and teaching resources.

King's College London

Our innovative Executive Master's in International Education is a part-time programme specifically designed for teachers working in international schools worldwide. The programme will focus on developing participants' understanding of effective school leadership in an international education environment.

Introductory *courses*

We provide a suite of introductory courses which will give you insight into what it is like to work for Nord Anglia Education and prepare you for teaching in one of our schools around the world.

Being a Nord Anglia Education teacher

 30 - 60 mins

An overview of Nord Anglia Education and what makes us unique. Learn about our vision and strategy and hear from teachers and students about their experiences at one of our schools.

Assessment for learning

 30 - 60 mins

Understand the principles and processes associated with assessing student learning and various tools and methods used to track how your students are progressing.

Child protection

 60 - 90 mins

An overview of child development focusing on understanding, recognising and reporting child abuse, whilst helping to create a supportive and safe environment for children to grow and develop.

Leading learning

 30 - 60 mins

Learn about the link between good teaching and student progress with a focus on professional development and the creation of self-improving schools.

English as an additional language

 30 - 60 mins

Gain a deeper understanding of how an EAL student acquires a second language and the advantages of bilingualism.

Be Ambitious

 30 - 60 mins

Discover the educational philosophy which underpins all Nord Anglia schools and learn how to incorporate it into your teaching and learning.

Join us online
