

# Year 8 Homework Information Booklet

## *For students and parents*

### Key information about the 'Tic Tac Toe' system

#### Aims

- To develop independent learners
- To encourage students to manage their time effectively
- To enable students to be resourceful

#### How does Tic Tac Toe work?

- Students are to complete two tasks over the term in each subject area.
- For Task 1 students have a choice from 4 different tasks.
- All students complete the same Task 2.
- For each task that is chosen there is a due date
- In some cases this is denoted by 'w/c' which means week commencing. Students should then submit the work in their lesson that week.

#### How long should students spend?

- Students should spend around 60 minutes on each task in Year 8.
- Students are encouraged to break up the tasks into research, producing and proof reading.

If you have any questions then please do not hesitate to ask, by contacting

Competition date: 21.05.18 (Start: 2pm) to 31.05.18 (End: 2pm)

Due date: 18.06.18

Top Tip: You will be given the username and password in class on the 18<sup>th</sup> May. A briefing will be conducted during lessons. If you forget your password, please email Mr Leow or Ms Hey to reset.

<p>1. LO: To construct a range of valid circuits</p> <p><i>Task: Using proper circuit symbols produce four detailed, neat and accurate circuit diagrams to test your class-mates on. You should include the answers on the back / on a separate sheet.</i> <i>CHALLENGE: Include one incorrect circuit / component to catch your class-mate out!</i></p> <p>Due date: 07/05/2018</p> <p>Top tip: Include series and parallel circuits and at least at least 4 components in each one! Use the circuit symbols given to you in class.</p>	<p>1. LO: To describe the uses of magnets in everyday life</p> <p><i>Task: Produce a poster on the uses of magnets in everyday life. Describe why each use is benefitted by being a magnet. You should include at least one electromagnet.</i> <i>CHALLENGE: Can you think of alternative uses of magnets not already being done!?</i></p> <p>Due date: 07/05/2018</p> <p>Top Tip: fridge magnets / door stops / the bullet train / car scrapyards / toys / nuclear fusion reactor / bags / particle accelerators / compasses / speakers / MRI machines</p>
<p>1. LO: To explain the differences between current, potential difference and resistance.</p> <p><i>Task: Use an analogy / personification to discuss the differences between current, potential difference and resistance in a circuit!</i> <i>CHALLENGE: What are the limits of your analogy!?</i></p> <p>Due date: 07/05/2018</p> <p>Top Tip: one 'flows', one 'pushes' and one 'resists'. A classic analogy is that of water flowing!</p>	<p>1. LO: To evaluate power usage and energy efficiency</p> <p><i>Task: Research the power usage of an electrical appliance. Discuss alternative more 'efficient' options. Present this in the form of a catalogue (of laptops or smart phones for instance).</i> <i>CHALLENGE: Which is best and why?</i></p> <p>Due date: 07/05/2018</p> <p>Top tip: power = energy / time <math>P = E / t</math> OR power = current <math>\times</math> voltage <math>P = I \times V</math> Efficiency: power out/ power in!</p>

2. LO: To describe the process of gas exchange

*Task: Construct an annotated flow-chart of diagrams to show how gas is exchanged for respiration in a plant OR animal.*  
*CHALLENGE: for a photosynthesising plant discuss the 'compensation point' of oxygen production!*

Due date: 25/06/2018

Top tip: *Include: what molecule goes in and how (pressure / diffusion), what happens inside (the structure of the animal / plant), how it is used (the chemical equation for respiration!) and then how it is expelled (diffusion).*

## Additional notes about core subjects

### MATHEMATICS

- Students in Key Stage 3 will be set two pieces of homework per week.
- One piece will be set from *MyiMaths*, an online portal for which the students have personalised logins. These pieces will be marked online and their results logged. The tasks can be done several times for more practice, as the tasks change each time.
- The second piece of homework will be written, and should take around 25 minutes. It will be marked by the teacher or by peers in class.
- If homework is not completed the Behaviour for Learning policy will be applied and additional Math's Department detentions may be set.

### ENGLISH

- Students in Key stage 3 will be set two pieces of homework per week.
- One piece will be set in direct relation to the classwork, and should take a minimum of forty minutes.
- The other piece will be shorter and relate to key skills such as spelling, punctuation and grammar: for example, revising for a spelling test, correcting punctuation in a text etc.
- All homework will be recorded in student planners. If not completed additional department sanctions may be set.
