TOOTHPASTE COLLECTION 2017

Follow up

In May 2017 thanks to BIS Ho Chi Minh City students, parents and staff we collected more than 3000 toothpastes.

300 of these toothpastes, were given to the children of 2 orphanages managed by ASSORV NGO and around 2700 were brought to Quang Nam Province to be given to poor people during medical checks organised by Vietnam Health Clinic NGO.

The checks lasted for 8 days in July and concerned 2400 poor people.

A **video on the BIS website** shows what happened during a clinic day

**All this was possible thanks to the huge donation each of you made.
Thank you !**
