

2021/22

WHAT IS THE ACADEMY?

The British School of Guangzhou Academy offers a wide range of extracurricular experiences outside of normal school hours. They're great opportunities for students to try something new and discover talents in areas they didn't realise existed, or to improve on skills they already have.

Everything from mixed media art and STEAM, to swimming and coding is available — we work with our own teachers to ensure that what we provide is not only creative, but quality.

SCHEDULE

Tuesday (8 sessions)	
April	12, 19, 26
May	3, 10, 17, 24, 31

Thursday (8 sessions)	
April	21, 28
May	5, 12, 19, 26
June	2, 9

PRICING

Club	Charge Per Session	Total Cost	Lead Teacher(s)
Science/STEAM Academy	¥150	1,200	Mr Starkey/Miss Fan
Mosaic Masterclass Academy	¥150	1,200	Mrs Peralta
Mixed Media Art Academy	¥150	1,200	Miss Maggie/Miss May
Lego Academy	¥150	1,200	Mr Rutherford
Hip-Hop Dance Academy	¥150	1,200	Miss Seven
Swimming Academy	¥175	1,400	Mrs Howell/Mr Lee
Sketch-Up Academy	¥150	1,200	Mr Ali
Beginner + Advanced Coding Academy	¥150	1,200	Mr McLaughlin/Mr Elsmore
Fun with English Academy	¥150	1,200	Mrs Bowness
Young Mathematicians Academy	¥150	1,200	Mrs Prendi
Chinese Traditional Dance Academy	¥150	1,200	Miss Yuki
Choreography Dance Academy	¥150	1,200	Miss Seven
Cycling Proficiency Academy	¥150	1,200	Mr Howell
Comic Club Academy	¥150	1,200	Mrs Peralta

Club	Day	Age Group	Location	No. of Students	Details
Hip-Hop	Tuesday	Y4-8	Hillside Hall	20	Hip-Hop Dance originates from street dancing and is popular all around the world. Hip-Hop dance usually involves big and simple movements, but also can use complex motions and some fancy steps! It is easy to learn, thus it is loved by many people across all ages ranges. Children will learn the basic knowledge about Hip-Hop Dance before moving on to more complex moves and dancing with others. By the end of the programme, they will learn 1-2 full pieces of dance, have lots of fun and improve their fitness!
Sketch-Up Academy	Tuesday & Thursday	Y4-9	ICT Room	20	Sketch-up is a powerful 3D modelling program which is used to create a wide range of 3D models including architectural, interior design and landscape architecture. Sketch-up Academy is a fun and exciting opportunity which will allow all students, regardless of experience, to develop their knowledge and understanding of creating 3D models on the laptop computer before creating their own 3D models through project work.
STEAM	Tuesday	Y5-9	Lab 4	24	STEAM is now regarded as one of the most important academic disciplines and this is an exciting opportunity for students to learn and enhance their practical fine motor skills, teamwork and creativity through a range of practical science and STEAM activities.
Lego Academy	Tuesday	Y4-6	N-CL1	20	In Lego Academy, children will be challenged to solve problems and work as a team using a toy that everyone is familiar with, Lego! Challenges will range from building bridges from table to table and making towers that can touch the ceiling. the twist is that children will never know how they might have to work together. Sometimes they may not be allowed to talk to each other; sometimes each child will have a specific job. Whatever the rules end up being, it's a chance for children to build up their collaborative skills in a fun way!
Lego Academy	Thursday	Y1-3	N-CL1	20	

THE ACADEMIES

Club	Day	Age Group	Location	No. of Students	Details
Swimming	Tuesday	Y1-3	Pool	12	Our very popular swimming academy returns and will focus on increasing water safety as well as developing stroke technique in front crawl, breast-stroke and backstroke.
Swimming	Thursday	Y4-6	Pool	16	
Cycling Proficiency Academy	Tuesday & Thursday	Y4-8	South Lake Campus	7	Can you ride a bike but want to get better at it and learn how to cycle on the road? This academy follows the UK Bikeability Programme. Bikeability acts as an updated, more relevant, modern-day version of the Cycling Proficiency Test. It's role is to ensure that young people gain the practical skills necessary to be able to cycle on today's roads safely. A progressive programme, this academy assists everyone with gaining the skills and confidence for various levels of cycling and how to stay safe while doing so. Bikes and helmets will be provided by BSG. We will be cycling around the BSG campus and surrounding area.
Mosaic Masterclass Academy	Tuesday	Y2-6	N-CL22	16	Mosaic is an art technique which uses small parts such as tiles, glass and marble to make a picture. It dates all the way back to the Egyptians who used this technique to make jewellery and decorative walls. In this masterclass, children will look at patterns and learn about how shapes fit together. It will improve their fine motor skills and allow them an opportunity to be imaginative.
Choreography Dance Academy	Thursday	Y4-8	Hillside Hall	20	In the Choreography Dance Academy, the children will be taught one choreography piece during the whole session each week. This type of style requires stronger body control, body fluency and body isolation. Also, the children will learn dance moves which will include all different dance styles' basic elements. This academy is suitable for children with a strong dance foundation.
Comic Club Academy	Thursday	Y3-6	N-CL22	20	This comic club is aimed for children who enjoy reading comic books, graphic novels and manga, After exploring the writing and artistic features of a range of comics, we will plan new stories and create our own comics. This club will help to improve both children's story writing and artistic skills.
Chinese Traditional Dance Academy	Thursday	Y3-4	Theatre	18	Chinese Classical Dance technique combined with classical ballet, to increase body strength and flexibility. Body rhythm is the core technique where you will learn how to control your muscles through breathing. You also will learn a traditional folk dance(Fan Dance, etc), improving your emotional expression and connection with traditional Chinese culture.

Club	Day	Age Group	Location	No. of Students	Details
Young Mathematicians Academy	Thursday	Y4-6	N-CL43	16	Do you really love maths? Are you always one of the first students to finish the maths activities in class? If you like a challenge, and want to learn further strategies to help you solve difficult maths problems, then this academy is for you. The academy is not suitable for students who find mathematics difficult, but it is perfect for those who love an extra challenge.
Fun with English	Tuesday	Y2-3	N-CL2	16	The Fun with English academy is aimed at developing students' speaking and storytelling skills. Students will be introduced to a range of rhymes, poems and stories and how to bring them to life using their voices, facial expression, body language and props.
Beginner Coding	Tuesday	Y1-4	Primary STEAM Lab	24	We are offering an opportunity to learn to code using several different pieces of hardware that can be programmed. We will use OSMO coding tiles and APP to understand how to create a code for a machine to work. The course will progress onto more complicated coding using Legos and Dash and Dot robots. There will be an element of creating, engineering, problem-solving and debugging.
Advanced Coding	Thursday	Y1-4	Primary STEAM Lab	24	Advanced coding is suitable only for those children who participated in our beginner's coding class in Term 2. We will continue to extend your coding skills with more advanced and complicated coding programmes.
Mixed Media Art	Tuesday	Y4-6	Primary Art Studio	20	Join our Arty Party! Be an artist! Paint, Draw, Create! You will learn about the wonders of line, shape, color and more. You will use a variety of materials and explore mixed media art in a fun and creative environment and atmosphere!
Mixed Media Art	Thursday	Y1-3	Primary Art Studio	20	Join our Arty Party! Be an artist! Paint, Draw, Create! You will learn about the wonders of line, shape, color and more. You will use a variety of materials and explore mixed media art in a fun and creative environment and atmosphere!
