Welcome to the **new look** Global Classroom!

We have spent the summer making it even better for you and we hope you like it. There are lots of brand new activities and discussions to take part in this year. If you have any ideas about what you'd like to see on the site, let us know by posting on the Suggestion box online.

The Big Challenge

Make it Right

How do you make the right decisions in your life?
Not every child your age goes to school.
Not everybody in the world has choices in their life.

With help from Oxfam, you have the opportunity to create a project that makes a difference to the lives of those who need it.

Get ready for the October launch.

Can you... find out how many children do not have a right to go to school? Talk with others about this on the community forum in The Big Challenge.

Did you **know?**
In Guatemala, **1 in 2 children** under 5 years old doesn't have the food they need to be healthy.

Key vocabulary:
we call this malnutrition

Can you... find the dictionary definition?

NORD ANGLIA EDUCATION

In support of **OXFAM**

CHALLENGE BASED LEARNING

Think Tank

Interested in beautiful butterflies or creepy crawlies? New for this year is our science and technology area, Think Tank where you can take part in the Bug Challenge.

Professor Deborah Eyre, our Education Director is visiting Tanzania next week to capture images of bugs in the region. Keep an eye on Think Tank for these images

Try and find an interesting bug near where you live, complete the information sheet and share what you've found with other students from around the world on the Global Classroom.

Can you identify this insect?
Post your ideas in the upload forum in Think Tank.

Did you know?
80% of the world's species are insects

Student leaders

Are you interested in becoming a part of the Global Classroom and communicating with other students across the world?

Your school needs Global Classroom Student Leaders, so take the step forward and represent your school as an ambassador for Global classroom.

Find out about how you can get involved by speaking to your Global Classroom lead teacher.

Can you... find out what student groups have made a difference to your school in the past?

Do you have what it takes?

Learn. Virtually. Everywhere.
