REGIONAL AND GLOBAL EVENTS

Ignite your child's ambitions

Is your child passionate about the world's future? They could present at the United Nations headquarters in New York. Do they dream of standing on top of the world? We'll help them conquer Mount Kilimanjaro. Nord Anglia Education's unparalleled regional and global events encourage your child to dream big — to step outside their comfort zone and try something new.

Your child will join fellow Nord Anglia Education students from around the world for extraordinary learning opportunities. We collaborate with the world's leading organisations in their respective fields to offer your child one-of-a-kind educational experiences in remarkable global locations to accelerate their academic, personal and social development. From a STEAM festival at the one of the world's top-ranked universities, the Massachusetts Institute of Technology, to daring expeditions in the Tanzanian Serengeti and Swiss Alps, our experiences will ignite your child's ambitions and equip them for success.

“ This was a once in a lifetime opportunity that will be etched in the memories of our students who were all truly inspired by MIT. ”

Carly Wilding-Reid,
STEAM Coordinator

A once-in-a-lifetime learning adventure

Our out-of-the-classroom learning experiences will take your child on once-in-a-lifetime learning adventures. Our programme includes a variety of opportunities to appeal to every child's talents and interests throughout their school career, from sports and physical challenges, to STEAM, the performing arts and sustainable development. Your child will participate in rich and rewarding opportunities of the highest calibre. Real-world, hands on experiences are tailored to different learning styles and levels to amplify every student's growth and foster a love of learning.

At our Performing Arts with Juilliard events, students deepen their knowledge and passion for the arts whilst sharpening their technical skills, thanks to personalised and targeted attention from Juilliard specialists. Our annual UNICEF Global Summit in New York gives students the opportunity to influence policy at the highest level through presentations to the United Nations, government officials and distinguished individuals through the High-level Political Forum.

Our regional and global opportunities include:

- Regional and global STEAM festivals with MIT
- The Global Games - our regional and global sport competitions
- Global expeditions in Switzerland and Tanzania
- Model United Nations Summit with UNICEF in New York
- Regional Model United Nations competitions
- Summer Performing Arts with Juilliard

Our experiences positively impact students':

1. Resilience, self-confidence and well-being
2. Engagement with learning
3. Knowledge, skills and understanding
4. Achievement and attainment
5. Relationships with peers and teachers

“ Mandla had the most amazing experience in a diverse, multi-cultural environment, which gave him the opportunity to collaborate with other students, thereby improving his team building and interpersonal skills, as well as his confidence. ”

Parents of Mandlakayise Ncala,
Summer Performing Arts Camp with Juilliard participant

Building skills outside of the classroom

For many students, learning outside of the classroom is a life-changing experience — broadening their minds, inspiring an openness to new challenges and instilling a deep sense of achievement. The wide-reaching benefits also include stronger academic results and improved social and emotional development.

These unforgettable experiences leave a lasting impact, nurturing the lifelong knowledge, skills and mindset for your child to thrive in our changing world. Students are encouraged to lead their own learning which deepens their engagement.

Activities nurture traits such as confidence, resilience and resourcefulness together with core skills including creativity, leadership and collaboration — qualities valued by universities and employers alike. Our events also mark the start of new friendships with students from around the world, creating bonds and memories that will last a lifetime.
