

# This Week in F2N

## A look back at the week....

The children are making a mud monster from the story.

## Reminders and Notices

Please ensure that your child wears a hat to school. They will need to wear their hat every play time and during PE lessons.

Please continue to read with your child daily, this can be their reading book in their folder or using the reading eggs website.

## Next week we will..

- learn how find half of 2D shapes and even numbers up to ten.
- continue to read the story, 'Room on the Broom' and have a range of creative activities linked to this book.
- be making magic potions and observing the changes that happen to the liquid.

## At home...

Please find a phonics sheet to complete with your child. Let them sound out the letters and also encourage them to form the letters correctly.

## Top Tip!

Try out a Science experiment at home. You could make bubbles using a solution of washing up liquid and water. Bring in an element of competition, who can make the most bubbles? Who can make the biggest bubble?
