

Dear Parents

This letter has been sent home to inform you about your child's learning for **next week**.

In **Literacy**, we will be looking at stories which contain flashbacks. We are using Harry Potter texts to generate flashback ideas and will then will be using our own knowledge to create a flashback story of our own.

In **Numeracy**, we will be recapping fundamental skills. We will look at multiplying and dividing whole and decimal numbers by 10, 100 and 1000 before moving onto ordering and comparing numbers with three decimal places. Finally, we will focus on solving problems involving equivalent fractions, decimals and percentages.

In **Science**, we will be identifying and locating the major organs in the human body. We will then look at the roles and responsibilities of organs such as the heart and the lungs.

In **IPC**, we will be starting our new topic of 'Going Global.' We will be investigating where products and everyday items are resourced from around the world, and where companies in the local area originate from.

In **ICT**, we are learning to select, use and combine a variety of software on a range of digital devices that accomplish given goals by inserting digital photos into a desk top publishing package to create a comic strip effect.

In **PSHE**, we are learning to recognise our learning strengths and set challenging but realistic goals for ourselves.

For **Spellings**, students will receive their spelling lists on Thursday and will be tested on the list the following week. Students will have 11 words to learn during the course of the week.

Notice & Reminders:

- Please remember to check your child's Communication Book daily.
- Please remember to like our Facebook page Year 6 for updates from the Year group.
- Please send your child to school with a jumper or coat.

Have a lovely weekend!

Yours faithfully

Year 6 Team
