RE: IB GROUP 4 PROJECT SHOWCASE EVENT

Dear Parents/Guardians,

Part of the requirement for IB Science subjects is for students to participate in a 'Group 4 Project'. In this, they work collaboratively with students from other science disciplines. This year students are preparing presentations on the topic of water.

To showcase the work that the students have completed, we will be holding a 'Group 4 Project Showcase Evening' on Tuesday 27 May between 5:00pm and 6:30pm in the Secondary Foyer. The showcase will form part of the assessment as students are required to present their work and we would be delighted if you could attend.

If you have any questions about this please do not hesitate to contact me at t-bate@bisspuxi.com

Yours faithfully,

Mr. Toby Bate
Head of Science
