The British International School Shanghai, Puxi Campus Plan for Bus Routines 20192020					
<p>We run a bus service from many areas in Shanghai to make it easier for families to get children to and from school each day. We do what we reasonably can to provide a comprehensive bus service at the normal start and end of the day, although it may not be possible to serve some locations because of distance, direction and traffic or parking conditions. We will not be able to change bus routes during the course of the school year. In some cases we may be able to add a new stop when it is along an existing route and will not impact on bus times. We are not able to offer a door to door service-instead of selecting the safest and convenient bus stops for all users.</p>
