

Dear Parents

This letter has been sent home to inform you about your child's learning for **next week**.

In **Literacy**, students will be finishing their topic on discovering aliens and then peer and self- assessing their work. This will enable students to improve their writing and reflect on their work.

In **Numeracy**, students will be doubling and halving numbers up to 100 using the partitioning method. Students will then begin to multiply numbers between 10 and 25 by 1-digit numbers using the grid method.

In **Science**, students will complete the topic of materials by learning about natural and manmade materials.

In **IPC**, students will be continuing the invention process. This week students will be creating their invention. They will plan and write a sales pitch script, which they will present to The Dragons from NAISAK's Dragon's Den.

In **Art / Technology**, students will continue their project on designing, creating and evaluating their own photo frame. You can help your child by examining any frames that you may have at home together.

In **ICT**, students will continue the work on emailing and sending and receiving attachments.

For **PSHE**, students will learn about being safe at home. They will think about liquids that are unsafe and share some tips about being safe at home.

### Notice & Reminders:

- If you are not receiving the Home Learning Menu **each and every week**, please notify Reception, who can update our email records.
- Reports should have now been received. Please read through as these will be discussed in our parent / teacher meetings.
- A gentle reminder that parent / teacher meetings are scheduled for this week. Please arrive promptly at your scheduled time and bring any specific questions you may have regarding the reports.
- Please remember that learning starts at 7:10. Reading and phonics starts the day so any late arrivals miss valuable learning time. Please ensure students arrive promptly at **7:00**.

Have a lovely weekend!

Yours faithfully

Year 3 Team
