

Art

In art we have been making Gargoyles. Using paper and tape we have made our own amazing monsters. Some are funky , some are serious and some are so big that there is no space to put them anywhere! Gargoyle are sculptured monsters or demons which hang on castles or big buildings. We are on the process of making them. Most of us are starting to use glue and scraps of newspaper to make them even more solid. We squashed paper and stuck the on big pieces of thin cardboard. Before making our different monsters we drew a small sketch of our gargoyles. Mrs.Procter has shown us different techniques that we have been using. We collaborate together to make our individual gargoyles : this way we get it done faster. It is so much fun making gargoyles in art. Next after our gargoyles are solid we shall get lost in grey splashes of paint. But we are not on that yet. Art is a imaginative and creative subject especially with our kind teacher Mrs.Procter...

Get lost in the world of art!!!!
