

Maths in Year 3 and 4 at the British School of Beijing, Shunyi

NORD
ANGLIA
EDUCATION

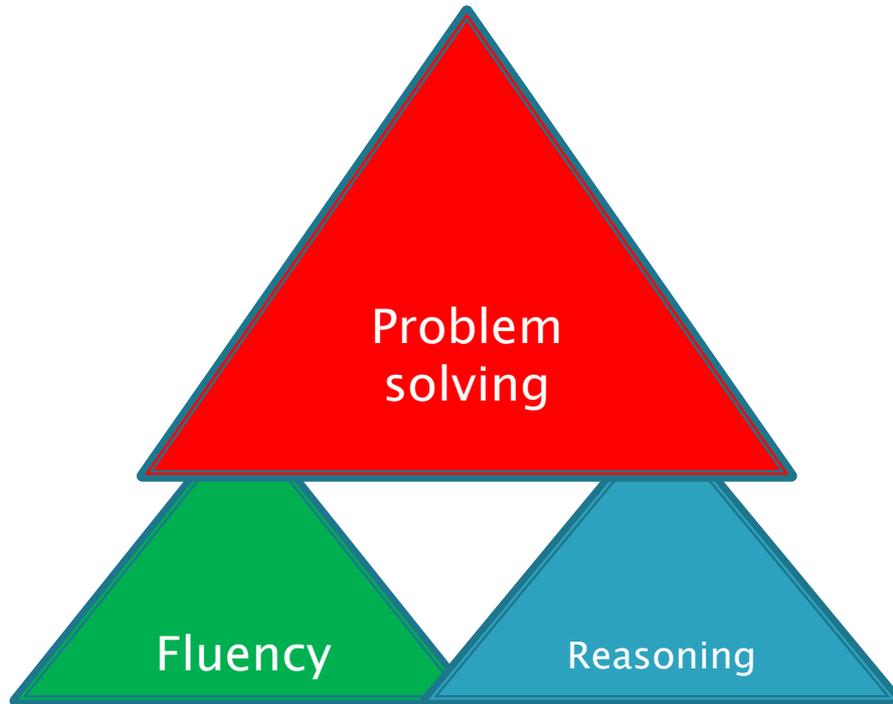

In today's workshop we will:

- ▶ Quick oral mental starter– ‘crack the code’.
 - ▶ Overview of maths in Years 3 and 4.
 - ▶ Focus on how we teach 4 number operations with a focus on multiplication and division.
- 

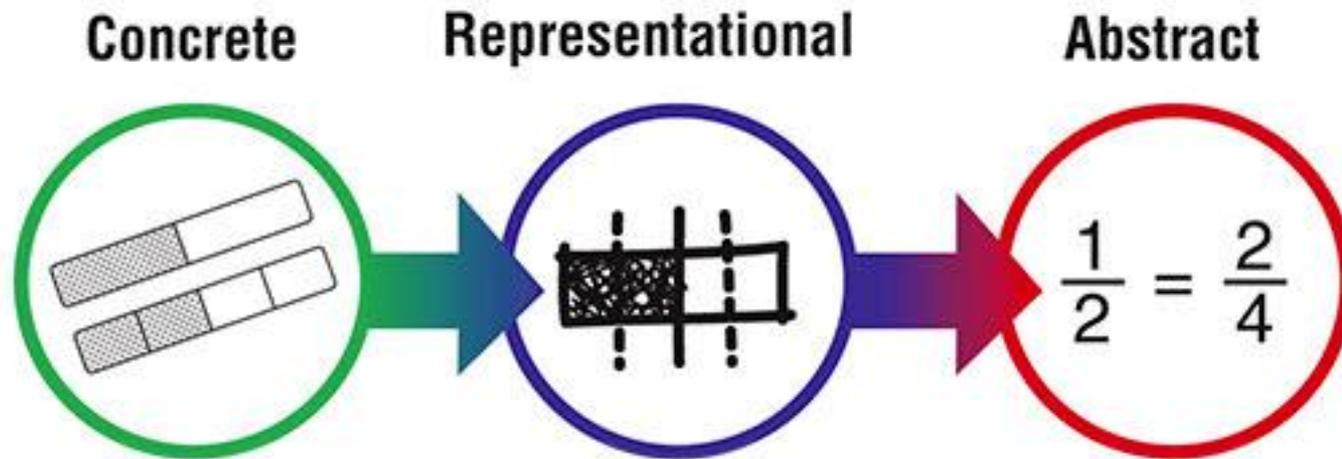

Oral mental starter

- ▶ crack the code

Changes to the curriculum

Representations

How can you help your child?

- ▶ Use the same **methods** that we use in school to help them at home.
 - ▶ Focus on developing **fluency** and **mastery** of concepts through **quick recall** of number facts.
 - ▶ Show them maths in different **contexts** and the **relationship** between numbers.
- 

Methods we use in maths lessons

Subtraction number line

$$82 - 49 =$$

$$1 + 30 + 2 = 33$$

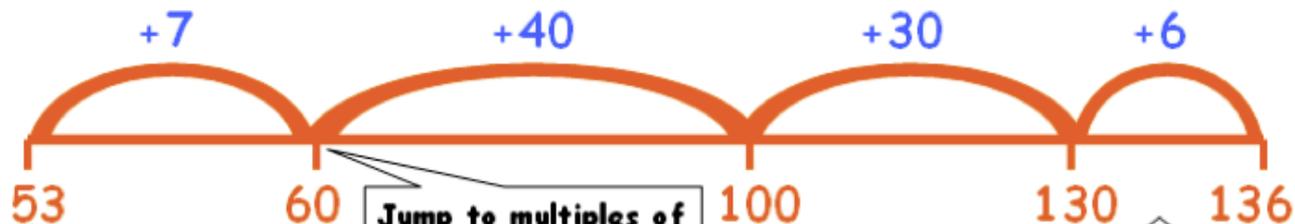

$$10 + 10 + 10 + 3 = 33$$

Subtraction

Use the 'counting on' method for subtraction

$$136 - 53 = \square$$

Remember to start at the smallest number.

$$7 + 40 + 30 + 6 = \underline{\underline{83}}$$

Add together the jumps that you made

Find the difference

Column subtraction

$$\begin{array}{r} \overset{7}{\cancel{8}}3 \\ - 35 \\ \hline 48 \end{array}$$

$$\begin{array}{r} \overset{5}{\cancel{2}}63 \\ - 125 \\ \hline 138 \end{array}$$

H	T	U	
3	12		
	2	15	
4	3	5	
2	4	6	-
1	8	9	

$\begin{array}{r} 67.2 - 9.32 \\ \overset{5}{\cancel{6}}\overset{16}{7}\overset{11}{\cancel{2}}\overset{10}{0} \\ - 9.32 \\ \hline 57.88 \end{array}$	$\begin{array}{r} 245 + 75.63 \\ \overset{1}{2}\overset{1}{4}5.00 \\ + 75.63 \\ \hline 320.63 \end{array}$
---	--

Addition using partitioning

▶ $567 + 199$

Partitioning method

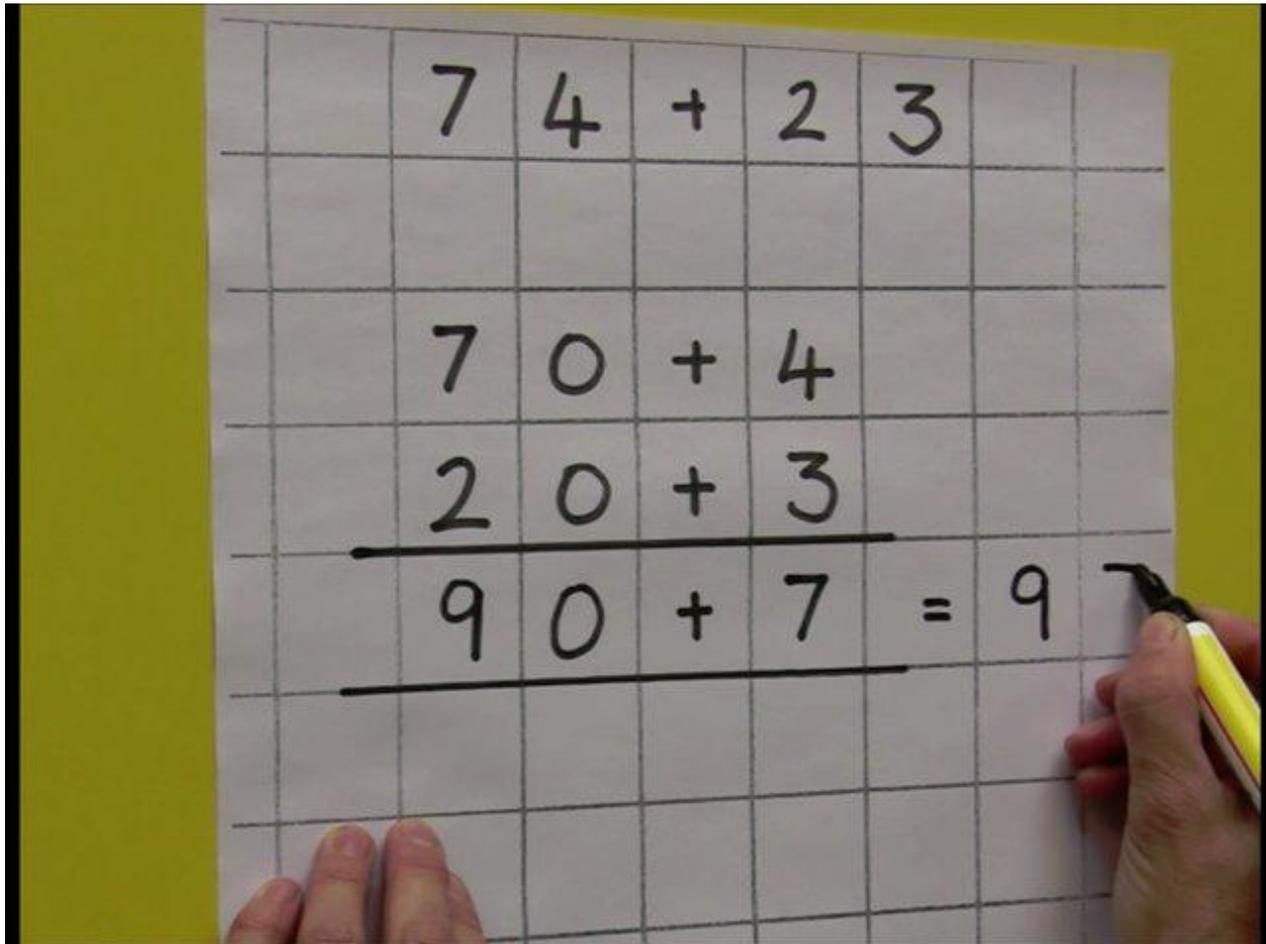

$$500 + 100 = 600$$

$$60 + 90 = 150$$

$$7 + 9 = 16$$

$$600 + 150 + 16 = 766$$

Column method using partitioning

Partitioning and recombining

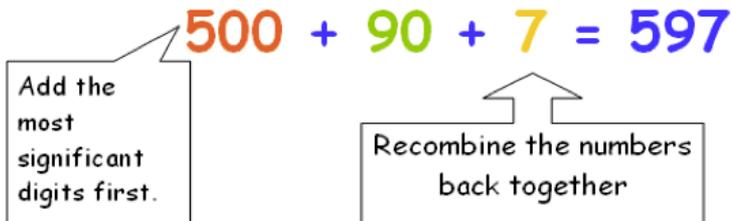

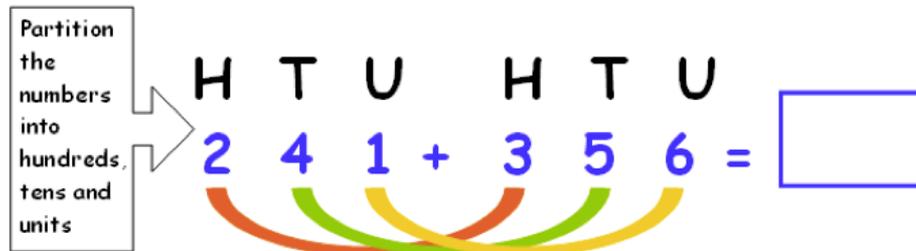

$$\begin{array}{r} 38 \\ + 93 \\ \hline 120 \\ 12 \\ \hline 132 \end{array}$$

→ add the tens first

→ then add the units

Partitioning

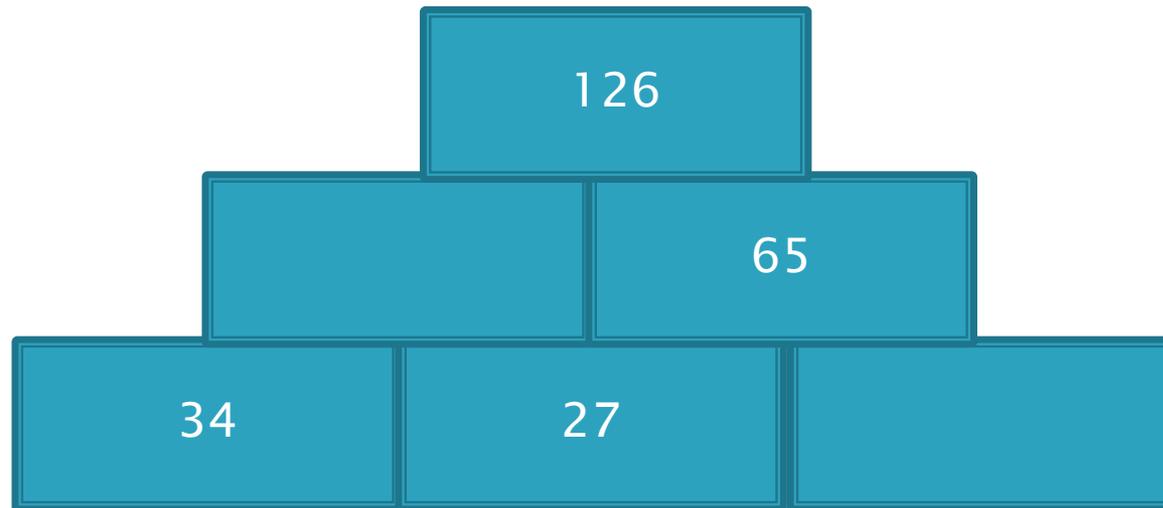

Use the partitioning method for addition

Column addition

$$\begin{array}{r} 38 \\ + 93 \\ \hline 131 \\ \hline 1 \end{array}$$

Addition pyramid

Multiplication grid method

$$37 \times 5 =$$

X	30	7
5	150	35

$$37 \times 5 = 150 + 35$$

$$37 \times 5 = 185$$

Grid method

Use the grid method for multiplication

$$136 \times 7 = \square$$

Partition the numbers in hundreds, tens and units

X	100	30	6
7	700	210	42

Make sure the numbers stay in the right place in the grid

$$700 + 210 + 42 = \underline{\underline{952}}$$

Recombine the numbers back together.

Grid method

▶ $28 \times 33 =$

X	20	8
30	600	240
3	60	24

$$600 + 240 + 60 + 24 = 924$$

Now it's your turn!

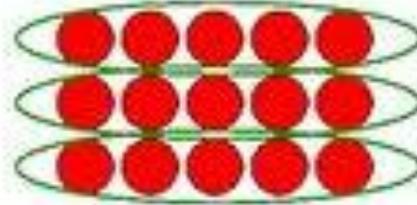

▶ $15 \times 6 =$

▶ $25 \times 12 =$

Division with arrays

$$15 \div 3 = 5$$

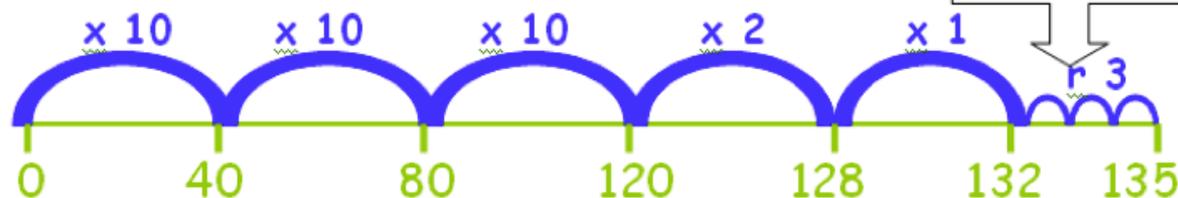

Number of counters Number of rows Number in each row

Division using chunking

Use the 'chunking up method' for division

$$135 \div 4 = \square$$

$$10 + 10 + 10 + 2 + 1 = 33 \text{ r}3$$

x 4 facts

$$1 \times 4 = 4$$

$$2 \times 4 = 8$$

$$5 \times 4 = 20$$

$$10 \times 4 = 40$$

Use easy times table facts to help you.

Add up how many 'lots of 4' you jumped.

Chunking for division

$$172 \div 8 = 21r4$$

$$\begin{array}{r} 172 \\ - 80 \quad (10 \times 8) \\ \hline 92 \\ - 80 \quad (10 \times 8) \\ \hline 12 \\ - 8 \quad (1 \times 8) \\ \hline 4 \quad \quad \quad r4 \end{array}$$

Short division

$$\begin{array}{r} \text{1 7 8} \\ 3 \overline{) 5 \text{ 23 24}} \end{array}$$

Short Division

- $5 \div 3 = 1$ with a remainder of **2**.
- Write the **2** beside the 3. You know have 23.
- $23 \div 3 = 7$ with a remainder of **2**.
- Write the remainder by the 4. You know have 24.
- $24 \div 3 = 8$ with no remainder.
- The answer is 178.

Now it's your turn!

▶ $126 \div 3 =$

The X box

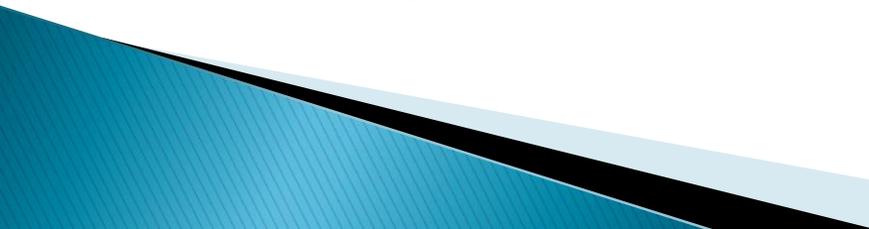

What if I had put a secret number
in the X Box?
And the total of 3 of that number
($3x$) was 15?

Making maths fun

- ▶ [puzzle pack!](#)

Making maths fun

- ▶ Cooking – understanding recipes, measures and quantities
 - ▶ Time – TV schedules and train timetables
 - ▶ Games with dice (score 21, less than, more than)
 - ▶ Playing cards (bond snap, adding up cards, dealing & switching)
 - ▶ Seeing number relationships or patterns.
 - ▶ Apps on tablets or phones
 - ▶ Guess the number
 - ▶ Create a target game with rule
 - ▶ Shop around. Search for advertisements with sales.
 - ▶ Treasure Hunts with maths clues
 - ▶ Squash that box! Be aware of the nets for 3D containers.
 - ▶ Tracking Time. Monitor how long activities take.
-
