RE: INSURANCE ON YEAR 6 ADVENTURE RESIDENTIAL

Dear Parents/Guardians,

I would like to clarify for you the situation regarding medical support and insurance for the Year 6 Adventure Residential 2014-15.

BISS Puxi will take out a specific travel insurance policy with AIG for named students and staff for this trip. The insurance cover is that of standard travel insurance policies in that it covers death, accidents, emergency medical treatment and travel issues such as delays and baggage loss.

As for all residential trips, we additionally request details of each child's personal medical cover to ensure we have the greatest cover for all eventualities.

In the event of any medical emergency, BISS Puxi will act as a guarantor and ensure that all necessary medical treatment is provided immediately and not be hindered in any way by any insurance processes.

In advance of all trips, BISS Puxi liaise with SOS International who provide a personalised and very thorough emergency action plan for us which outlines appropriate medical support services in the area. In the event of any medical concerns, we liaise with their emergency service and take advice and guidance on best courses of action and most appropriate medical providers in the area for the specific medical situation.

If you have any further questions, please do not hesitate to contact me.

Yours sincerely,

Niki Meehan
Head of Primary
