We aim to equip our students with the tools, curiosity and cultural literacy to engage with the performing arts throughout their lives.

Unlock your child's imagination

Participation in and understanding of the performing arts have wide-reaching benefits for children. The arts act as a creative key, unlocking a child's imagination. Studying music, drama and dance helps broaden your child's understanding of cultural and social history. Our goal is to foster the development of key 21st century skills such as communication, collaboration and critical thinking – lifelong skills that are important to everyone.

How will my child benefit?

The Juilliard-Nord Anglia Performing Arts Programme puts music, drama and dance at the heart of your child's educational experience.

The performing arts curriculum focuses on inspiring a deep love of the arts in every student. Beginning with music, your child will study an enriched curriculum, featuring a Juilliard – curated repertoire representing varied genres, styles and cultures. Through hands-on activities related to this repertoire, your child will learn the language of music and develop creative skills such as improvisation and basic composition. Nord Anglia students will also gain an understanding of how music functions and how it fits into the human experience.

Our teachers and students will benefit from being connected to Juilliard's worldwide network of performers and teachers, as Juilliard teaching artists will bring their insights to Nord Anglia's collaborative teaching community. Not only will this enhance their delivery of the curriculum, but it will also ensure that your child receives the highest quality teaching available.

Whatever your child's talents and aspirations, the Juilliard-Nord Anglia Performing Arts Programme will help them develop a long-lasting relationship with great works of art from all over the world. Better yet, they'll make wonderful memories while they're learning.
