Personal Project Showcase

Going virtual!

Be Ambitious

The Personal Project

The Personal Project is the opportunity for Grade 10 students to show what they are capable of.

It requires them to draw upon all of the skills and knowledge they have developed as MYP learners over 5 years in middle school.

- Researching
- Planning & Time Management
- Creating Products
- Reflecting
- Presenting & Communicating
- Independence & Responsibility

All of these skills prove that they are ready for the DP and beyond!

Personal Project Showcase

Usually we have an incredible showcase/ exhibition on campus for all of the school community.

We had to make some changes for this year.

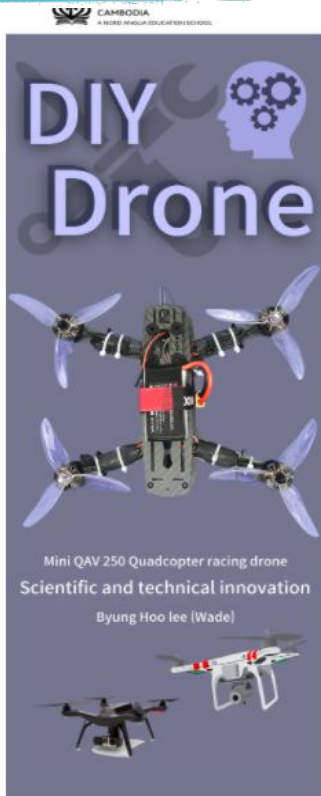

- The students take pride in their outstanding work.
- The students inspire the younger year levels.
- Parents and school community take pride in what our students accomplish.
- The student's take on responsibility and ownership for the event.
- Everyone has fun!

The Projects

"PROJECT 104, A CLOTHING LINE ENVISIONED
AND CREATED BY A BOY WITH AN INTRIGUED
MIND, REFLECTING ON THE LAND HE CALLS
HOME. HAND-DRAWN AND EDITED, EACH DESIGN
IS CRAFTED TO HELP SHOW A SMALL PART OF
KHMER CULTURE"

project 104
by panha

Hi! Thank you for visiting my page!

My project is creating a clothing line that revolves around Khmer culture. Why clothing line when there's so many already you may ask. Well, I was always interested to start one but it was never the right time. So the Personal Project allowed me to start one. Each design is inspired by a small part of Khmer culture.

Project 104, follows a story of y/n traveling to an alternate universe, a radiant world where everything is crafted by each and everyone's imagination.

Questions and Comments

Questions

Please write whatever questions that you have after seeing my videos, thank you!

Q

I personally haven't had any events in my life where I believed I, myself have attracted. But I am very much an avid believer in manifestation, and the ideologies you explained.

Could you please elaborate some examples of the "unnecessary junk" you are to clear from your mind, and how we are able to do that? are there any daily routines you keep to maintain positive self thoughts?

A

I don't think that you haven't because I believe that we all attract things into our lives,

Q

Woah this topic is pretty cool! Do you try to utilize this mentality in real life?

A

The reason for me choosing to work on this project was for me to learn more about having a mentality through the law of attraction which I'll utilize, practice and develop for as long as I live (don't wanna sound corny). But not only this, I want to help not only myself, but as many people as I can, especially those that struggle with issues related to their mental health.

Q

In your opinion do you think that a champion's mentality is something that people are just born with? Like do you have to believe it from a young age or is it something you can develop?

A

In my opinion I believe that this is both a yes and a no. No baby is born with a champion's mentality, but these babies will be born into a family, an environment where they meet certain people or experience certain things that builds them to have a champion's mentality

Q

What inspired you to choose law of attraction as your main focus?

A

Growing up I played a lot of sports and took things probably a little too seriously at times, I looked up to many players and athletes with every single one of them having a unique mindset of their own, yet they all projected the same aura of confidence that gave them a mental edge over their opponents. With something so physical like professional sports, those that were at the top were there not

Taking Responsibility

Name	Class	Monitor	TASKS				Upload your video response to the video question assigned to you Upload here	Add a video of yourself explaining your project (2-3mins) and an "image carousel"	Set up a basic padlet for comments and embed to your page.	Post a comment or question on at least 2 other students padlets
			Academic Honesty Form Submitted	Check project page links work and banner image is updated	Change Title, Name and quote on your project page	Add a PDF of your report and some welcome text
