

Year 6 Home Learning Menu 08.03.18

Main Course – you **MUST** do these every week:

- Read for 15 minutes - 5 times per week
- Learning weekly spellings
- Times table practise
- 15 minutes on Mathletics/Reading Eggs – 3 times per week

Dessert: Project to be completed by **28th March!**

- Create your own invention. You will need to create a model of the invention and an explanation card.
- Make a short experiment which demonstrates how to separate materials.

Starters: SCIENCE.

Write down a list of reversible and irreversible changes you can see in your home.

Find an example of materials which are separated in your home.

Research how filtering can be used to separate materials.

Draw and label an example of filtering which can be used in everyday life.

- Everyone **must** finish the main course every week. Work must be completed in your Home Learning books and returned to school on Wednesday of each week.
- Everyone **must** attempt one, or both, of the project desserts. You will be asked to present your work to your teachers and peers.
- If you are feeling *extra* hungry, you can order from the starters. These will focus on a different subject each week. Each dish has a difficulty rating. The more chilies, the more *challenging* the task!
- Why not spend some time tackling some of the family side dishes. Time spent as a family is important and you can learn together whilst having fun.

Sides: Family Fun

- Listen to a sibling read and record it in their reading record.
- Ask an adult to read you one of their favourite books.
- Complete an activity on Global Campus and write about it in your primary passport to earn a stamp.
