RE: QINGPU XIU LONG MIGRANT SCHOOL ECA

Dear Parents/Guardians,

I am writing as your son or daughter has expressed an interest in participating in the ECA programme at QingPu Xiu Long Migrant School (青浦区秀龙民办小学),

Last year some of our students were involved in a programme called 'Students Responding to Students'(SRS) at the migrant school which aimed to foster leadership, empowerment and cross-cultural understanding between children in the migrant school system and the international school system in Shanghai. This year we hope to develop this link further and start a student-led themed ECA. Students will work in small groups to deliver themed ECAs in a 5-6 week block at the migrant school, the first one being Arts & Crafts taking place between 17 September – 29 October.

This will be a valuable and meaningful activity which provides a great opportunity to act as role models, develop leadership skills and raise awareness about different needs within the local community. There will be a bus arranged to leave from school to the migrant School and return back to the Secondary school at 5.40pm.

For more information please take a look at our recent school blog post.
