

Virtual School Policy

Should schools be forced to close or suspend the provision of on campus education for any reason, including a Force Majeure Event for one week (or more) the affected school will implement the Nord Anglia Virtual School Experience.

Virtual Schooling shall form part of the once-off exceptional support that the school may provide to parents and students in such circumstances.

Virtual Schooling will be delivered to all our students regardless of their age. Taking the age of the student, and their well-being into consideration, it is essential that screen-time is balanced with offline activity.

Our Virtual School Experience will therefore:

- Be a mixture of live synchronous contact with the student's teacher(s) and asynchronous personal learning activity (independent study), undertaken online or offline, against their normal curriculum, whilst at home
- Provide an individualised student dashboard, where student assignments can be set and submitted together with downloadable content for both students and parents
- Include provision for a student's physical, social, emotional, creative and aesthetic needs as well as academic learning (this may include activities such as musical instrument tuition and performance, undertaking science experiments, conversations in foreign languages and an engaging range of fun and artistic challenges)

Continue to connect students through our Global Campus, where students can collaborate and create world-class ideas. Students will be required to work together despite the fact that they may be studying remotely, solving challenges such as those set by the Massachusetts Institute of Technology or collaborating on solutions for UNICEF's Sustainable Development Goals and ensuring that safeguarding and child protection are as high a priority as they would be on campus at our school.

Education in a Nord Anglia Education school is a long-term process that aims to meet the needs of every student in a personalised way, regardless if the students are studying on campus or remotely.

Virtual Schooling shall be the agreed temporary replacement for on campus learning during a Force Majeure Event, however, we acknowledge that it should only be provisional in nature. We commit to continuing to develop the student's education as they prepare to reintegrate and return into on campus schooling.

Further details about our virtual school experience are available on your school's website and also on the Nord Anglia Education website at the following link:
