Type of activity

Fundraising: an event whose primary purpose is to raise money for a community partner

Research and advocacy: Volunteers conduct research and projects that aim to educate others and raise awareness about specific challenges.

Countries impacted

■ Australia
■ Cambodia

Term 2 Social Impact Profile

Community Partners Highlights

WIRES - NSW Wildlife Information Rescue and Education Service

WIRES extends all over NSW and many people call them daily to send people to go help. IT has been around since 1985. There are about 2500+ volunteers and they all look after at least 5 animals. Wires are doing everything they can to save animals that are been harmed by the bushfires and flooding which have plagued Australia. They have saved more than 100,000 animals since these

problems happened. People are donating to WIRES to help keep animals alive and safe.

Cambodian Living Arts

Cambodian Living Arts were founded in 1998 by genocide survivor and musician Arn CHORN-POND. For a decade, they focused on endangered performing art forms and rituals. As 90% of Cambodia's artists did not survive the Khmer Rouge regime, Cambodia's artistic heritage was in danger of being lost forever.

Over the last 20 years, both Cambodia and the arts scene have developed rapidly and they have evolved their work to match. They have focused on helping talented people to build and develop careers in the arts, through scholarships, fellowships, and support to troupes and individuals. They are also working to get more arts and culture education into Cambodian public schools and to increase performance opportunities for Cambodian artists.

Primary Dodgeball Competition

February 2020

This event involved students from kindergarten to grade level 4 students. It took place during snack recess in the sports hall.

The Arts Council members worked hard by designing posters advertising this event in advance through classroom visits preparing the materials and being responsible to make this a successful event.

The funds will be given to Cambodian Living Arts toward their area of greatest need such as for their Arn- Chorn pond Scholarships. Students who want to express their talents and transfer their knowledge to the next generations but don't have enough financial support will be benefited from this fundraising.

Activities Highlights

WIRES - NSW Wildlife Information Rescue and Education Service

January 2020

Aid for animals - WIRES - NSW Wildlife Information Rescue and Education Service - is an activity where we try to raise money to donate to the animals affected in the Australian bushfires.

The people that took part in this project was able to help to raise funds by leading various fundraising activities like donation boxes and good/drink sales during events hosted with these fundraising activities and some help from STUCO
