! INFORMATION & REMINDERS

Thank you all for your fundraising efforts for Project Week. In total Year 6 raised 19191.30 RMB!!! This is an incredible achievement so thank you. As you know, we are away on Project Week next week, please check our Tumblr account for updates of how we are getting on!!

Friday 6th November - School photo orders early-bird deadline (please order online using instructions on letter)

Saturday 7th November, 6-9pm - Bonfire Night

Thursday 12th November, 9am - Juniors Coffee Morning

Tuesday 17th November; 9am to 11am and then repeated from 5pm to 7pm - Assessment Workshops for Parents

Below is an outline of the objectives and learning we will begin the week we return from Project Week.

ENGLISH

Children are developing a confident sense of different writing techniques.

Next week children will learn to:

- * correctly identify and use an ellipsis
- * use expanded noun phrases to convey complicated information correctly.
- * convert nouns or adjectives into verbs

As part of developing an understanding of these objectives we will study their use within a number of different texts (both fiction and non-fiction); linked to our new Topic - What a Wonderful World.

MATHEMATICS

We are continuing with the area of 'Multiplicative Reasoning'. Children have been developing their understanding and practice of long multiplication and division. Next week we will reinforce this learning and in addition teach the following objectives:

- * solve problems involving addition, subtraction, multiplication and division.
- * multiply one-digit numbers with up to two decimal places by whole numbers.
- * use written division methods in cases where the answer has up to two decimal places.
- * solve problems involving the calculation of percentages [for example, of measures, and such as 15% of 360] and the use of percentages for comparison.

TOPIC

We have begun our new topic, 'What a Wonderful World'. Children have been working collaboratively; posing as design teams working for an International company. They have been creating a calendar to present to the 'Studio Head'. Next week children will begin these presentations with a prize for the winning calendar!

Following on from this children will begin a mini research project about our globe. Children will collate information about our world, analysing and answering geographical questions around maps, scales, longitude and latitude and using various keys and symbols to present information. Information will then be gathered about our natural world and the wildlife on our planet. This research will lead onto children making their own natural history documentary on a chosen habitat. Each group will create their film and choose how they would like to present it to the rest of the class.
